Index of Authors

Note. Entries marked with an asterisk (*) refer to communications made in title only.
Entries marked with a section mark (§) refer to Symposia.
Small roman numerals refer to pages in *Proceedings of the Biochemical Society.*

ALDRIDGE, W. N. The conversion of cyanogen chloride to cyanide in the presence of blood proteins and sulphydryl compounds 271

ALEXANDER, P., CARTER, D., EARLAND, C. & FORD, O. E. Esterification of the carboxyl groups in wool 629

ALEXANDER, P., CARTER, D. & JOHNSON, K. G. Formation by formaldehyde of a cross-link between lysine and tyrosine residues in wool 435

ALEXANDER, P. & GOUGH, D. The reaction of oxidizing agents with wool. 4. The reactivity of tyrosine 504

ALEXANDER, P., GOUGH, D. & HUDSON, R. F. The reaction of oxidizing agents with wool. 3. The influence of the morphology on the rate of reaction 20

AMINOFF, D. & MORGAN, W. T. J. Studies in immunochemistry. 9. The oxidation of the human blood-group A substance with the periodate ion 74

ANNISON, E. F., JAMES, A. T. & MORGAN, W. T. J. The separation and identification of small amounts of mixed amino sugars 477

ANSLOW, W. K. *see* LESTER SMITH, E. 1 (*Proc.*)

ARNOTT, D. G. & DONIACH, I. The effect of compounds allied to resorcinol upon the uptake of radioactive iodine (^{131}I) by the rat thryoid lxii

ARNSTEIN, H. R. V. The biosynthesis of choline methyl groups by the rat 27

ARNSTEIN, H. R. V. & NEUBERGER, A. The effect of vitamin B_{12} on the conversion of glycine to choline ii

ASKONAS, B. A. The use of organic solvents at low temperature for the separation of enzymes. Application to aqueous rabbit muscle extract 42

BACON, J. S. D. & EDELMAN, J. The carbohydrates of the Jerusalem artichoke and other Compositae 114

BAIN, D. S. *see* KING, E. J. 51, lxii

BALL, S. *see* LESTER SMITH, E. 1 (*Proc.*)

BALMAIN, J. H. & FOLLEY, S. J. Further observations on the stimulation by insulin of fat synthesis by lactating mammary gland slices i

*BANKS, T. E., BURNOP, V. C. E., FRANCIS, G. E., MULLIGAN W. & WORMALL, A. Some equipment used in the measurement of radioactive and stable isotopes xlv

BANKS, T. E., FRANCIS, G. E., MULLIGAN, W. & WORMALL, A. The use of radioactive isotopes in immunological investigations. 5. Quantitative aspects of the antibody-antigen reactions 180

BANKS, T. E., FRANCIS, G. E., MULLIGAN, W. & WORMALL, A. The use of radioactive isotopes in immunological tests. 6. Some observations on precipitin inhibition tests and on antibody valence 371

BARNETT, A. J. G. The estimation of lactic acid in silage lvii

BASSIL, G. T. & BOSCOTT, R. J. The cortisone-iodine complex xlviii

BATHAM, E., FISHER, L. R., HENRY, K. M., KON, S. K. & THOMPSON, S. Y. Preformed vitamin A in marine crustacea x

BEER, C. T., DICKENS, F. & PEARSON, J. The aromatization of hydrogenated derivatives of benzoic acid in animal tissues 222

BEEVERS, H. An L-glutamic acid decarboxylase from barley 132

BENDER, A. E. Methyl cellosolve as a developing solvent in paper partition chromatography xv

BEST, C. H., LUCAS, C. C., PATTERSON, J. M. & RIDOUT, J. H. The rates of lipotropic action of choline and inositol under special dietary conditions 452

BEST, C. H., RIDOUT, J. H., PATTERSON, J. M. & LUCAS, C. C. A statistical evaluation of the lipotropic action of inositol 448

BIRKINSHAW, J. H., BRACKEN, A., MICHAEL, S. E. & RAISTRICK, H. Studies in the biochemistry of micro-organisms. 83. Fuscin, a metabolic product of *Oidiodendron fuscum* Robak. Part 2. Derivatives and degradation products 67

BLACKBURN, S. & LOWTHER, A. G. The separation of *N*-2:4-dinitrophenyl amino-acids on paper chromatograms 126

BLASCHKO, H. & LANGEMANN, H. Enzymic decarboxylation of 2:3-dihydroxyphenylalanine in extracts of guinea pig kidney vii

BOSCOTT, R. J. Paper chromatographic separation of urinary phenols and oestrogens xlvii

BOSCOTT, R. J. *see also* BASSIL, G. T. xlviii

BRACKEN, A. *see* BIRKINSHAW, J. H. 67

BRAY, H. G., HYBS, Z. & THORPE, W. V. Metabolism of derivatives of toluene. 6. Tolunitriles, benzonitrile and some related compounds 192

BRAY, H. G., LAKE, H. J. & THORPE, W. V. The metabolism of sulphamezathine, 4:6-dimethylpyrimidine and 2-amino-4:6-dimethylpyrimidine in the rabbit with observations on the hydroxylation of some other sulphonamides 400

BRAY, H. G., THORPE, W. V. & WHITE, K. Kinetic studies of the metabolism of foreign organic compounds. 1. The formation of benzoic acid from benzamide, toluene, benzyl alcohol and benzaldehyde and its conjugation with glycine and glucuronic acid in the rabbit 88

BRAY, H. G., THORPE, W. V. & WOOD, P. B. The fate of certain organic acids and amides in the rabbit 394

BRAY, H. G. & WHITE, K. Kinetic studies of the conjugation of phenols with sulphuric and glucuronic acids by the rabbit xliii

BRIMLEY, R. C. *see* PARTRIDGE, S. M. 313

BROWN, L. M. *see* HARRISON, M. F. 151

Index of Subjects

Note. Entries marked with an asterisk (*) refer to communications made in title only.
Entries marked with a section mark (§) refer to contributions to Symposia.
Small roman numerals refer to pages in *Proceedings of the Biochemical Society.*

A substance, blood-group, oxidation with the periodate ion (Aminoff, D. & Morgan, W. T. J.) 74
Absorption of stereo-isomers of amino-acids from loops of the small intestine in the rat (Gibson, Q. H. & Wiseman, G.) 426
§Accessory organs of reproduction, male, hormonal and nutritional factors in the metabolism of (Lutwak-Mann, C.) lxiv
Acetamidohydroxybenzoic acids, paper chromatography of (Bray, H. G., Thorpe, W. V. & Wood, P. B.) 394
Acetate, carboxyl-labelled, mode of formation of milk fatty acids studied with the aid of (French, T. H., Hunter, G. D., Martin, A. J. P. & Popják, G.) vi
Acetate, formation in the goat of milk fatty acids from (Popják, G., French, T. H., Hunter, G. D. & Martin, A. J. P.) 612
Acetate oxidation, catalysis by kidney particles (Judah, J. D. & Williams-Ashman, H. G.) 33
Acetate, utilization for milk-fat synthesis in the lactating goat (Popják, G., French, T. H. & Folley, S. J.) 411
Acetic acid, isolation from milk fat of goat (Popják, G., French, T. H., Hunter, G. D. & Martin, A. J. P.) 612
Acetoacetate, transamination and oxidation of L-tyrosine by rat liver with the formation of (Le May-Knox, M. & Knox, W. E.) xxii
Acetobacter species, formation of cellulose by (Kaushal, R. & Walker, T. K.) 618
Acetone, precipitation of proteins with (Askonas, B. A.) 42
Acetone, separation of rabbit muscle proteins by (Askonas, B. A.) 42
Acetyl β-methylcholine, hydrolysis by brain cholinesterase, effect of alcohols on (Todrick, A., Fellowes, K. P. & Rutland, J. P.) 360
Acetylation of sulphamezathine in rabbit (Bray, H. G., Lake, H. J. & Thorpe, W. V.) 400
Acetylcholine, effect of alcohols on enzymic hydrolysis of (Todrick, A., Fellowes, K. P. & Rutland, J. P.) 360
Acetylcholine, effect on amylase of pigeon pancreas slices (Hokin, L. E.) 320
Acetylcholine esterase of cerebral cortex (Richter, D. & Hullin, R. P.) 406
N-Acetylchondrosamine in A substance, oxidation by periodate (Aminoff, D. & Morgan, W. T. J.) 74
N-Acetylcysteine, reaction with cyanogen chloride (Aldridge, W. N.) 271
Acid, ether-soluble, from 4:6-dimethylpyrimidine in rabbit (Bray, H. G., Lake, H. J. & Thorpe, W. V.) 400
Acid, removal by trioctylamine from samples for microbiological assay (Hughes, D. E. & Williamson, D. H.) 487
Acids, *N*-2:4-dinitrophenylamino-, separation on paper chromatograms (Blackburn, S. & Lowther, A. G.) 126
Acids, faecal volatile, of normal and cholesterol-fed rats (Thomson, R. O.) x
Acids, fatty, influence of 2:4-dinitrophenol on the oxidative breakdown of (Fantl P., Lincoln, G. J. & Nelson, J. F.) 96
Acids, fatty, normal, new method for the chemical degradation of (Hunter, G. D. & Popják, G.) v
Acids, fatty, of the faecal lipids of normal and cholesterol-fed rats (Edwards, D. C. & Cook, R. P.) ix
Acids, milk fatty, formation from acetate in the goat (Popják, G., French, T. H., Hunter, G. D. & Martin, A. J. P.) 612
Acids, milk fatty, mode of formation of (French, T. H., Hunter, G. D., Martin, A. J. P. & Popják, G.) vi
Acids of a horse mesenteric fat (Gupta, S. S. & Hilditch, T. P.) 137
Acids, organic, fate in the rabbit (Bray, H. G., Thorpe, W. V. & Wood, P. B.) 394
Acids, organic, mechanism of the formation by mould fungi (Chughtai, M. I. D. & Walker, T. K.) 524
Activators of carbonic anhydrase (Clark, A. M. & Perrin, D. D.) 495
Actomyosin-forming ability of extracted myosin (Perry, S. V.) 257
Adenine as inhibitor of D-amino-acid oxidase (Burton, K.) 458
Adenosine as inhibitor of D-amino-acid oxidase (Burton, K.) 458
Adenosine-5-phosphate and phosphorylation in brain (Case, E. M. & McIlwain, H.) 1
Adenosine-5′-phosphate as inhibitor of D-amino-acid oxidase (Burton, K.) 458
Adenosinetriphosphatase activity of myofibrils isolated from skeletal muscle (Perry, S. V.) 257
Adenosinetriphosphate, effect on metabolism of citrate by yeast extracts (Foulkes, E. C.) 378
Adrenal medullary tumour, derivatives of adrenaline and noradrenaline in an extract of (Crawford, T. B. B.) 203
Adrenaline derivatives in an extract of an adrenal medullary tumour (Crawford, T. B. B.) 203
Adrenocortical steroids, chloroform-insoluble conjugated, hydrolysis in human urine (Cox, R. I. & Marrian, G. F.) xxxiii
Adrenocortical steroids, chloroform-soluble conjugated, in human urine (Paterson, J. Y. F. & Marrian, G. F.) xxxiii
Adsorbent in the chromatography of proteins, tricalcium phosphate (Swingle, S. M. & Tiselius, A.) 171
Adsorbents, adjuvant action on virulence-enhancing factor (Smith, H.) 441
Aeration of the stationary assay medium and growth response of *Lactobacillus leichmannii* (Lees, K. A. & Tootill J. P. R.) i
Agenized wheat flour, isolation of a toxic substance from (Campbell, P. N., Work, T. S. & Mellanby, E.) 106
β-Alanine, separation on filter-paper chromatograms (Synge, R. L. M.) 429
Alcohols, effect on cholinesterase (Todrick, A., Fellowes, K. P. & Rutland, J. P.) 360
Aldehyde oxidase, liver, enzymic oxidation of pyridoxal by (Schwartz, R. & Kjeldgaard, N. O.) 333
Aliesterases of rats on a hypolipotropic diet (Hawkins, R. D. & Nishikawara, M. T.) 276
n-Alkyl 3:5-diiodo-4-hydroxybenzoates, thyroxine-inhibitory action of a series of ethers of (Wilkinson, J. H., Sheahan, M. M. & Maclagan, N. F.) iii
Alkylarylpolyethoxyethanol, non-ionic detergent, in manometer fluid (Krebs, H. A.) 240
Aluminium oxide as an adsorbent for chromatography of porphyrins (Nicholas, R. E. H.) 309

Amide groups of insulin (Chibnall, A. C. & Rees, M. W.) xlvii
Amides, fate in the rabbit (Bray, H. G., Thorpe, W. V. & Wood, P. B.) 394
Amino sugars, mixed, separation and identification of small amounts of (Annison, E. F., James, A. T. & Morgan, W. T. J.) 477
Amino-acid composition of yeasts used to produce massive dietetic liver necrosis in rats (Lindan, O. & Work, E.) 337
Amino-acid content of rat livers on various diets (Lindan, O. & Work, E.) 344
Amino-acid requirements of amylase synthesis by pigeon-pancreas slices (Hokin, L. E.) xl
D-Amino-acid oxidase, stabilization by flavin-adenine dinucleotide, substrates and competitive inhibitors (Burton, K.) 458
Amino-acids and β-carotene production by *Phycomyces blakesleeanus* (Garton, G. A., Goodwin, T. W. & Lijinsky, W.) 154
Amino-acids, assimilation by bacteria (Gale, E. F.) 286, 290; (Gale, E. F. & Paine, T. F.) 298
Amino-acids, *N*-2:4-dinitrophenyl, separation on paper chromatograms (Blackburn, S. & Lowther, A. G.) 126
Amino-acids, effect on amylase of pigeon-pancreas slices (Hokin, L. E.) 320
Amino-acids from loops of the small intestine in the rat, selective absorption of stereo-isomers of (Gibson, Q. H. & Wiseman, G.) 426
Amino-acids separated by paper chromatography, quantitative recovery and colorimetric estimation of (Fowden, L.) 327
Amino-acids, separation by displacement chromatography (Partridge, S. M. & Brimley, R. C.) 313
ω-Amino-acids, methods for isolating (Synge, R. L. M.) 429
2-Amino-4:6-dimethylpyrimidine, metabolism in the rabbit (Bray, H. G., Lake, H. J. & Thorpe, W. V.) 400
γ-Aminobutyric acid, distribution, origin and fate of (Synge, R. L. M.) 429
γ-Aminobutyric acid, isolation from rye grass (Synge R. L. M.) 429
γ-Aminobutyric acid, production from L-glutamic acid by decarboxylase (Beevers, H.) 132
γ-Aminobutyric acid, separation on filter-paper chromatograms (Synge, R. L. M.) 429
ε-Aminocaproic acid, separation on filter-paper chromatograms (Synge, R. L. M.) 429
Aminohydroxybenzoic acids, acetylation in rabbit (Bray, H. G., Thorpe, W. V. & Wood, P. B.) 394
Aminohydroxybenzoic acids, fate in the rabbit (Bray, H. G., Thorpe, W. V. & Wood, P. B.) 394
Aminohydroxybenzoic acids, paper chromatography of (Bray, H. G., Thorpe, W. V. & Wood, P. B.) 394
p-Aminosalicylic acid in body fluids, methods for determination of (Short, E. I.) 301
p-Aminosalicylic acid mixed with sulphetrone or sulphonamides in body fluids, differential determination of (Short, E. I.) 301
δ-Aminovaleric acid, separation on filter-paper chromatograms (Synge, R. L. M.) 429
Ammonia, interference with estimation of amino-acids after paper chromatography (Fowden, L.) 327
Ammonia production from nitrate in sheep rumen (Lewis, D.) 171
Amylase of *Clostridium butyricum* (Whelan, W. J. & Nasr, H.) 416
Amylase, synthesis and secretion by pigeon pancreas *in vitro* (Hokin, L. E.) 320
Amylase synthesis by pigeon-pancreas slices, amino-acid requirements of (Hokin L. E.) xl
Aneurin, preparation of oxythiamine from (Rydon, H. N.) 383
'Animal protein factor' deficient chicks, effect of antibiotics and vitamin B_{12} on the growth of (Coates, M. E., Harrison, G. F., Kon, S. K., Mann, M. E. & Rose, C. D.) xii
Anions, inhibition of blood clotting by (Lovelock, J. E. & Burch, B. M.) xxxiv
Antabuse, inhibition of oxidation of pyridoxal by (Schwartz, R. & Kjeldgaard, N. O.) 333
Anterior pituitary extract, lipid mobilized by (Campbell, J. & Lucas, C. C.) 241
Antibiotics, action on the accumulation of free glutamic acid and the formation of combined glutamate in *Staphylococcus aureus* (Gale, E. F. & Paine, T. F.) 298
Antibiotics, effect on the growth of normal and 'animal protein factor' deficient chicks (Coates, M. E., Harrison, G. F., Kon, S. K., Mann, M. E. & Rose, C. D.) xii
Antibodies labelled with radioactive isotopes, use in a quantitative study on the precipitin reaction (Francis, G. E., Mulligan, W. & Wormall, A.) xxxvi
Antibodies, valency of (Marrack, J. R., Hoch, H. & Johns, R. G. S.) xxi
Antibody-antigen reactions, quantitative aspects of (Banks, T. E., Francis, G. E., Mulligan, W. & Wormall, A.) 180
Antibody valence, observations on (Banks, T. E., Francis, G. E., Mulligan, W. & Wormall, A.) 371
Antigen-antibody reactions, quantitative aspects of (Banks, T. E., Francis, G. E., Mulligan, W. & Wormall, A.) 180
Antigens, ^{131}I-labelled, in study of precipitin reaction (Banks, T. E., Francis, G. E., Mulligan, W. & Wormall, A.) 371
Antigens labelled with radioactive isotopes, use in a quantitative study on the precipitin reaction (Francis, G. E., Mulligan, W. & Wormall, A.) xxxvi
Antithyroxine effect of diiodohydroxybenzoic esters in mice (Sheahan, M. M., Wilkinson, J. H. & Maclagan, N. F.) 188
Aromatization of hydrogenated derivatives of benzoic acid in animal tissues (Beer, C. T., Dickens, F. & Pearson, J.) 222
Arsenate, effect on accumulation of free glutamate in *Staphylococcus aureus* and *Streptococcus faecalis* (Gale, E. F.) 290
Arsenite, influence on *Aspergillus niger* (Chughtai, M. I. D. & Walker, T. K.) 524
Artichoke, Jerusalem, carbohydrates of (Bacon, J. S. D. & Edelman, J.) 114
Arylcysteines, synthesis and properties of (Parke, D. V. & Williams, R. T.) 624
Arylmercapturic acids, synthesis and properties of (Parke, D. V. & Williams, R. T.) 624
Arylsulphatase, spectrophotometric determination of (Robinson, D., Spencer, B. & Williams, R. T.) xxviii
Ascorbic acid formation from dehydroascorbic acid by *Escherichia coli* (Mapson, L. W. & Ingram, M.) 551
Ascorbic acid in dietetic liver necrosis of rats (Lindan, O. & Work, E.) xxxi
D-*iso*Ascorbic acid, reduction by *Escherichia coli* (Mapson, L. W. & Ingram, M.) 551
Aspergillus niger, influence of arsenite on (Chughtai, M. I. D. & Walker, T. K.) 524
Aspergillus ustus (Bainier) Thom & Church, isolation of ustic acid from (Raistrick, H. & Stickings, C. E.) 53
Assay, biological, of virulence-enhancing activity (Smith, H.) 441
Astaxanthin in pigments of locusts (Goodwin, T. W. & Srisukh, S.) 199
Aureomycin, effect on metabolism of *Staphylococcus aureus* (Gale, E. F. & Paine, T. F.) 298
Auxin, growth action of 2:3:6-trichlorobenzaldehyde resembling (Jones, R. L., Metcalfe, T. P. & Sexton, W. A.) 422

Azide, effect on accumulation of free glutamate in *Staphylococcus aureus* and *Streptococcus faecalis* (Gale, E. F.) 286
Azide, effect on conversion of dehydroascorbic acid to diketogulonic acid (Mapson, L. W. & Ingram, M.) 551
Azide, effect on metabolism of *Staphylococcus aureus* (Gale, E. F. & Paine, T. F.) 298
Azide, effect on respiration in brain (Case, E. M. & McIlwain, H.) 1

B_{12} complex, heat-labile, in faeces (Pennington, R. J.) xviii
Bacillus subtilis, effect of *cis*-vaccenic acid on respiration and growth of (Laser, H.) 164
Bacillus subtilis, levan synthesized by (Palmer, A.) 389
Bacteria, assimilation of amino-acids by (Gale, E. F.) 286, 290; (Gale, E. F. & Paine, T. F.) 298
Barcroft manometers, nomograms for (Dixon, M.) 575
Barley, L-glutamic acid decarboxylase from (Beevers, H.) 132
Benzaldehyde, formation of benzoic acid from, in rabbit (Bray, H. G., Thorpe, W. V. & White, K.) 88
Benzaldehydes, chlorinated, effect on plant growth (Jones, R. L., Metcalfe, T. P. & Sexton, W. A.) 422
Benzamide, formation of benzoic acid from, in rabbit (Bray, H. G., Thorpe, W. V. & White, K.) 88
Benzene, metabolism of (Parke, D. V. & Williams, R. T.) 621, 624, xxvii
Benzeneazophenol, glucuronides of (Smith, J. N. & Williams, R. T.) 546
Benzeneazoresorcinol, glucuronides of (Smith, J. N. & Williams, R. T.) 546
Benzoate as inhibitor of D-amino-acid oxidase (Burton, K.) 458
Benzoic acid, conjugation with glycine and glucuronic acid in the rabbit (Bray, H. G., Thorpe, W. V. & White, K.) 88
Benzoic acid, formation from benzamide, toluene, benzyl alcohol and benzaldehyde in the rabbit (Bray, H. G., Thorpe, W. V. & White, K.) 74
Benzoic acid, hydrogenated derivatives of, aromatization of (Beer, C. T., Dickens, F. & Pearson, J.) 222
Benzoic acid, micro-estimation in biological material (Dickens, F. & Pearson, J.) 216
Benzoic acids, aminohydroxy-, fate in the rabbit (Bray, H. G., Thorpe, W. V. & Wood, P. B.) 394
Benzoic acids, chlorinated, effect on plant growth (Jones, R. L., Metcalfe, T. P. & Sexton, W. A.) 422
Benzonitrile, metabolism in rabbit (Bray, H. G., Hybs, Z. & Thorpe, W. V.) 192
Benzoylglucuronide, excretion by rabbit after administration of benzene derivatives (Bray, H. G., Thorpe, W. V. & White, K.) 88
Benzyl alcohol, formation of benzoic acid from, in rabbit (Bray, H. G., Thorpe, W. V. & White, K.) 88
Betaine, effect on plasma pseudo-cholinesterase of rats (Hawkins, R. D. & Nishikawara, M. T.) 276
Bile, radioactive iodine in, after administration of pheniodol to rats (Free, A. A., Page, J. E. & Woollett, E. A.) 490
Biosynthesis of choline methyl groups by the rat (Arnstein, H. R. V.) 27
Blood clotting, inhibition by anions and the function of calcium (Lovelock, J. E. & Burch, B. M.) xxxiv
Blood, determination of benzoic and hippuric acids in (Dickens, F. & Pearson, J.) 216
Blood, ergothioneine in (Hunter, G.) 265
Blood-forming organs, porphyrin metabolism in disorders of (White, J. C. & Ventura, S.) lv
Blood glutathione in diabetes (Illing, E. K. B., Gray, C. H. & Lawrence, R. D.) 637, xxxiv
Blood-group A substance, oxidation with the periodate ion (Aminoff, D. & Morgan, W. T. J.) 74
Blood-group mucoids, separation of amino sugars from (Annison, E. F., James, A. T. & Morgan, W. T. J.) 477
Blood, histidine content of (Hughes, D. E. & Williamson, D. H.) 487
Blood plasma, determination of chlorides in, by a silver iodate method (King, E. J. & Bain, D. S.) 51
Blood proteins, conversion of cyanogen chloride to cyanide in the presence of (Aldridge, W. N.) 271
Blood, whole, normal biochemical values for (Wootton, I. D. P., King, E. J., Maclean Smith, I. & Haslam, R.) lix
*Blood, whole, separation from leucocytes by flotation on plasma albumin solutions (Tupper, R. & Watts, R. W. E.) xlv
Bone marrow, rat, effect of vitamin B deficiency on nucleic acid phosphorus content of (Lutwak-Mann, C.) xxv
Bones of rats, effect of feeding zinc on (Sadasivan, S.) 527
Borate and separation of *N*-2:4-dinitrophenyl derivatives of amino sugars in by chromatography (Annison, E. F., James, A. T. & Morgan, W. T. J.) 477
Borate as inhibitor of succinic dehydrogenase of *Neurospora crassa* (Shepherd, C. J.) 483
Bracken, evolution of dimethyl sulphide from, on treatment with sodium hydroxide (Bywood, R., Challenger, F., Leaver, D. & Whitaker, M. I.) xxx
Brain cortex, respiration of slices (McIlwain, H., Buchel, I. & Cheshire, J. D.) 12
Brain, *in vitro* measurements of the turnover rate of potassium in (Krebs, H. A., Eggleston, L. V. & Terner, C.) 530
Brain, inorganic phosphate and phosphocreatine of (McIlwain, H., Buchel, I. & Cheshire, J. D.) 12
Brain, mammalian, metabolic response *in vitro* to electrical stimulation of sections of (McIlwain, H.) lvi
Brain, mammalian, respiration and phosphorylation in preparations from (Case, E. M. & McIlwain, H.) 1
Bridge unit for filter-paper chromatography (Kawerau, E.) 281
Butyric acid, isolation from milk fat of goat (Popják, G. French, T. H., Hunter, G. D. & Martin, A. J. P.) 612

Cadaverine, action of histaminase on (Kapeller-Adler, R.) 99
Caffeine as inhibitor of D-amino-acid oxidase (Burton, K.) 458
Calcium activation of adenosinetriphosphatase activity of myofibrils (Perry, S. V.) 257
Calcium carbonate as an adsorbent for chromatography of porphyrins (Nicholas, R. E. H.) 309
Calcium content of the enamel and dentine of rat incisors, effect of a high-sucrose diet on (Hartles, R. L.) 245
Calcium, function in blood clotting (Lovelock, J. E. & Burch, B. M.) xxxiv
Calcium, interaction of serum globulins with (Martin, N. H. & Perkins, D. J.) lvi
Calcium method for 0·5 ml. of serum (King, E. J., Bain, D. & Pash, V.) lxii
Calcium phosphate as an adsorbent in the chromatography of proteins (Swingle, S. M. & Tiselius, A.) 171
Calibration, volume, of apparatus with standard ground joints (Dickens, F.) 385
Caproic acid, isolation from milk fat of goat (Popják, G., French, T. H., Hunter, G. D. & Martin, A. J. P.) 612
Capsule, ox lens, composition of (Pirie, A.) 368
Carbamino method for measuring the rate of hydration of carbon dioxide (Clark, A. M. & Perrin, D. D.) 495
Carbamylcholine, effect on amylase of pigeon pancreas (Hokin, L. E.) 320
Carbohydrate in diets deficient in vitamin B_1, effect on the survival and vitamin B_1 content of the rat (Yudkin, J.) 608
Carbohydrate in protein of ox lens capsule (Pirie, A.) 368
Carbohydrate metabolism in brain (Case, E. M. & McIlwain, H.) 1

Carbohydrate metabolism in *Neurospora*, enzymes of (Shepherd, C. J.) 483
Carbohydrate residues in virulence-enhancing factor of mucin (Smith, H.) 441
Carbohydrates and β-carotene production by *Phycomyces blakesleeanus* (Garton, G. A., Goodwin, T. W. & Lijinsky, W.) 154
Carbohydrates, cellulose formation from, by *Acetobacter* species (Kaushal, R. & Walker, T. K.) 618
Carbohydrates of the Jerusalem artichoke and other Compositae (Bacon, J. S. D. & Edelman, J.) 114
Carbon dioxide buffers, use in manometric measurements of cell metabolism (Krebs, H. A.) 349
Carbon dioxide, non-precursor of choline methyl groups (Arnstein, H. R. V.) 27
Carbon dioxide, production by *Aspergillus niger* (Chughtai, M. I. D. & Walker, T. K.) 524
Carbonic anhydrase, activators of (Clark, A. M. & Perrin, D. D.) 495
Carbonic anhydrase of cerebral cortex (Richter, D. & Hullin, R. P.) 406
Carboxyl groups in wool, esterification of (Alexander, P., Carter, D., Earland, C. & Ford, O. E.) 629
Carboxyl groups of insulin (Chibnall, A. C. & Rees, M. W.) xlvii
Carboxyl groups of porphyrins, effect on chromatographic behaviour (Nicholas, R. E. H. & Rimington, C.) 306
Carnosine, hydrolysis of (Hughes, D. E. & Williamson, D. H.) 487
Carnosine, microbiological assay of histidine from (Hughes, D. E. & Williamson, D. H.) 487
Carotene, effect of thyroxine and thiouracil on the metabolism of (Chanda, R., McNaught, M. L. & Owen, E. C.) xli
β-Carotene in pigments of locusts (Goodwin, T. W. & Srisukh, S.) 199
β-Carotene, synthesis by the fungus *Phycomyces blakesleeanus* Burgeff (Garton, G. A., Goodwin, T. W. & Lijinsky, W.) 154
Carotenogenesis, studies in (Garton, G. A., Goodwin, T. W. & Lijinsky, W.) 154
Carotenoids, study of echinenone and myxoxanthin (Goodwin, T. W. & Taha, M. M.) 513
Cell metabolism, use of carbon dioxide buffers in manometric measurement of (Krebs, H. A.) 349
Cellosolve, methyl, as a developing solvent in paper partition chromatography (Bender, A. E.) xv
Cells of the cerebral cortex, isolated nuclei from (Richter, D. & Hullin, R. P.) 406
Cellulose, formation by certain species of *Acetobacter* (Kaushal, R. & Walker, T. K.) 618
Cerebral cortex, isolated nuclei from cells of (Richter, D. & Hullin, R. P.) 406
Cerebrospinal fluid, estimation of protein in, using permanent turbidimetric standards of perspex (King, E. J.) 50
Charcoal, activated, adjuvant action on virulence-enhancing factor (Smith, H.) 441
Chicks, normal and 'animal protein factor' deficient, effect of antibiotics and vitamin B_{12} on the growth of (Coates, M. E., Harrison, G. F., Kon, S. K., Mann, M. E. & Rose, C. D.) xii
Chloral, effect on respiration and phosphorylation in brain (Case, E. M. & McIlwain, H.) 1
Chloramphenicol, effect on metabolism of *Staphylococcus aureus* (Gale, E. F. & Paine, T. F.) 298
*Chloride, cloudy Perspex standards for the turbidimetric estimation of (King, E. J., Webster, T. A. & Haslam, J.) lxi
Chloride, preparation of permanent turbidimetric standards for use in the determination of small amounts of (Haslam, J. & Squirrell, D. C. M.) 48
Chloride, silver iodate method for the determination of (King, E. J. & Bain, D. S.) 51
Chloride, ultramicro determination of (Viswanathan, R.) 239
Chlorine compounds, aromatic, relationship between constitution and effect on plant growth (Jones, R. L., Metcalfe, T. P. & Sexton, W. A.) 422
Chlorine, kinetics of the reaction with wool (Alexander, P., Gough, D. & Hudson, R. F.) 20
p-Chlorophenylglucuronide, use as substrate in the spectrophotometric determination of β-glucuronidase (Spencer, B. & Williams, R. T.) 537
Cholesterol-fed rats, component fatty acids of the faecal lipids of (Edwards, D. C. & Cook R. P.) ix
Cholesterol-fed rats, faecal volatile acids of (Thomson, R. O.) x
Cholesterol in livers of rats, effect of lipotropic factors on (Best, C. H., Lucas, C. C., Patterson, J. M. & Ridout, J. H.) 452
Cholesterol, synthesis in udder of goat (Popják, G., French, T. H. & Folley, S. J.) 411
Choline, effect of vitamin B_{12} on the conversion of glycine to (Arnstein, H. R. V. & Neuberger, A.) ii
Choline, effect on plasma pseudo-cholinesterase of rats (Hawkins, R. D. & Nishikawara, M. T.) 276
Choline methyl groups, biosynthesis by the rat (Arnstein, H. R. V.) 27
Choline methyl groups, incorporation in serine by rat-liver slices (Kruheffer, P.) 604
Choline, rate of lipotropic action under special dietary conditions (Best, C. H., Lucas, C. C., Patterson, J. M. & Ridout, J. H.) 452
Choline, synthesis of labelled serine in rats (Arnstein, H. R. V.) 27
Cholinesterase, effect of alcohols on (Todrick, A., Fellowes, K. P. & Rutland, J. P.) 360
Cholinesterase inhibition by parathion (Diggle, W. M. & Gage, J. C.) xxv
Cholinesterase, pseudo-, activity of the liver and serum of rats, effect of starvation on (Harrison, M. F. & Brown, L. M.) 151
Cholinesterase, pseudo-, in the plasma of male rats, effect of the ingestion of a hypolipotropic diet on the level of (Hawkins, R. D. & Nishikawara, M. T.) 276
Chromatogram, paper, relationship between the structure of the simple sugars and their behaviour on (Isherwood, F. A. & Jermyn, M. A.) 515
Chromatograms, cellulose powder, separation of ω-amino-acids by (Synge, R. L. M.) 429
Chromatograms, paper, separation of ω-amino-acids by (Synge, R. L. M.) 429
Chromatograms, paper, separation of *N*-2:4-dinitrophenyl-amino-acids on (Blackburn, S. & Lowther, A. G.) 126
Chromatography, displacement, on synthetic ion-exchange resins (Partridge, S. M. & Brimley, R. C.) 313
Chromatography, filter-paper, bridge unit for (Kawerau, E.) 281
Chromatography, liquid-gas partition (James, A. T. & Martin, A. J. P.) vii
Chromatography of porphyrins (Nicholas, R. E. H.) 309
Chromatography of proteins, tricalcium phosphate as an adsorbent in (Swingle, S. M. & Tiselius, A.) 171
Chromatography of the water-soluble constituents of liver (Campbell, P. N.) xix
Chromatography, paper, of amino- and acetamido-hydroxybenzoic acids (Bray, H. G., Thorpe, W. V. & Wood, P. B.) 394
Chromatography, paper, of porphyrins (Nicholas, R. E. H. & Rimington, C.) 306
Chromatography, paper partition, methyl cellosolve as a developing solvent in (Bender, A. E.) xv

Chromtograpahy, paper, quantitative recovery and colorimetric estimation of amino-acids separated by (Fowden, L.) 327
Chromatography, paper, separation of phenols and oestrogens of urine by (Boscott, R. J.) xlvii
Chromoproteins as pigments of locusts (Goodwin, T. W. & Srisukh, S.) 199
Citrate, metabolism by extract of baker's yeast (Foulkes, E. C.) 378
Citric acid and jamming of tricarboxylic acid cycle by fluoroacetate (Buffa, P., Peters, R. A., & Wakelin, R. W.) 467
Citric acid, formation by *Aspergillus niger* (Chughtai, M. I. D. & Walker, T. K.) 524
Clostridium butyricum, amylase of (Whelan, W. J. & Nasr, H.) 416
Clotting of blood, inhibition by anions and the function of calcium (Lovelock, J. E. & Burch, B. M.) xxxiv
CO_2 buffers, use in manometric measurements of cell metabolism (Krebs, H. A.) 349
Collagen in the rat, relative metabolic inertia of (Perrone, J. C. & Slack, H. G. B.) iv
Collagen, similarity of ox lens capsule to (Pirie, A.) 368
Collagenase, use in preparation of myofibrils (Perry, S. V.) 257
Colorimeter, photoelectric, interference strip spectrum light filter for (King, E. J. & Weedon, W.) lxi
Compositae, carbohydrates of (Bacon, J. S. D. & Edelman, J.) 114
Conjugated adrenocortical steroids in human urine, chloroform-insoluble, hydrolysis of (Cox, R. I. & Marrian, G. F.) xxxiii; (Paterson, J. Y. F. & Marrian, G. F.) xxxiii
Conjugation of aminohydroxybenzoic acids (Bray, H. G., Thorpe, W. V. & Wood, P. B.) 394
Conjugation of phenols with sulphuric and glucuronic acids by the rabbit, kinetic studies of (Bray, H. G. & White, K.) xliii
Copper, determination in blood serum (Ventura, S. & King, E. J.) lxi
Copper ions as inhibitors of succinic dehydrogenase of *Neurospora crassa* (Shepherd, C. J.) 483
Copper levels in patients suffering from blood disorders (White, J. C. & Ventura, S.) lv
Cortex, brain, respiration of slices of (McIlwain, H., Buchel, I. & Cheshire, J. D.) 12
Cortex, cerebral, isolated nuclei from cells of (Richter, D. & Hullin, R. P.) 406
Cortisone, iodine complex (Bassil, G. T. & Boscott, R. J.) xlviii
Counter-current apparatus (Lathe, G. H. & Ruthven, C. R. J.) lix
Cow udder, synthesis of milk fat by when perfused and isolated (Cowie, A. T., Duncombe, W. G., Folley, S. J., French, T. H., Glascock, R. F., Massart, L., Peeters, G. & Popják, G.) xxxix
Creatine phosphate of brain (McIlwain, H., Buchel, I. & Cheshire, J. D.) 12
Creatinephosphokinase preparation free from myokinase (Askonas, B. A.) 42
Cross-link between lysine and tyrosine residues in wool, formation by formaldehyde of (Alexander, P., Carter, D. & Johnson, K. G.) 435
Crustacea, marine, preformed vitamin A in (Batham, E., Fisher, L. R., Henry, K. M., Kon, S. K. & Thompson, S. Y.) x
Cuticle of wool and oxidation by chlorine (Alexander, P., Gough, D. & Hudson, R. F.) 20
Cyanide, effect on amylase of pigeon pancreas slices (Hokin, L. E.) 320
Cyanide, effect on metabolism of citrate by yeast extracts (Foulkes, E. C.) 378
Cyanide, effect on nitratase of *Escherichia coli* (Mapson, L. W. & Ingram, M.) 551
Cyanide, formation from cyanogen chloride in the presence of blood proteins and sulphydryl compounds (Aldridge, W. N.) 271
Cyanide, inactivation of succinic dehydrogenase by (Tsou, C. L.) lii
Cyanobenzoic acids, metabolism in rabbit (Bray, H. G., Hybs, Z. & Thorpe, W. V.) 192
Cyanogen chloride, conversion to cyanide in presence of blood proteins and sulphydryl compounds (Aldridge, W. N.) 271
p-Cyanohippuric acid metabolism in rabbit (Bray, H. G., Hybs, Z. & Thorpe, W. V.) 192
Cysteine, liberation of hydrogen sulphide by X-radiation from (Dale, W. M. & Davies, J. V.) 129
Cysteine, reaction with cyanogen chloride (Aldridge, W. N.) 271
Cytochrome in human spermatozoa (Mann, T.) 386
Cytochrome of semen, effect of freezing on (Mann, T.) 386
Cytochrome *b*, relation of succinic dehydrogenase to (Tsou, C. L.) lii
Cytochrome *c* as a hydrogen carrier for succinic dehydrogenase of *Neurospora crassa* (Shepherd, C. J.) 483
Cytoplasm of cerebral cortex, enzymes of (Richter, D. & Hullin, R. P.) 406
Cytosine, 5-methyl-, recognition and estimation in nucleic acids (Wyatt, G. R.) 581

α-Deaminase, histidine, of mammalian liver (Hall, D. A.) viii
Decarboxylase, L-glutamic acid, from barley (Beevers, H.) 132
Decarboxylation, enzymic, of 2:3-dihydroxyphenylalanine in extracts of guinea pig kidney (Blaschko, H. & Langemann, H.) vii
Decarboxylation of L-malic acid by *Lactobacillus arabinosus* (Nossal, P. M.) xvii
Dehydroascorbic acid, use of *Escherichia coli* for reduction and estimation of (Mapson, L. W. & Ingram, M.) 551
Dentine of rat incisors, effect of a high-sucrose diet on the calcium and phosphorus content of (Hartles, R. L.) 245
Deoxypentose nucleic acids, hydrolysis of (Wyatt, G. R.) 584
Deoxypentose nucleic acids, purine and pyrimidine composition of (Wyatt, G. R.) 584
Deoxyribonuclease, electrophoresis of oligonucleotides formed by the enzymic degradation of deoxyribonucleic acid by (Gordon, A. H. & Reichard, P.) 569
Deoxyribonucleic acid, enzymic degradation by deoxyribonuclease, electrophoresis of oligonucleotides formed by (Gordon, A. H. & Reichard, P.) 569
Detergent, non-ionic, of the 'alkylarylpolyethoxyethanol' type in manometer fluid (Krebs, H. A.) 240
Detoxication, studies in (Spencer, B. & Williams, R. T.) 537; (Smith, J. N. & Williams, R. T.) 546; (Parke, D. V. & Williams, R. T.) 621, 624
Diabetes, blood glutathione and non-glucose reducing substances in (Illing, E. K. B., Cray, C. H. & Lawrence, R. D.) 637, xxxiv
Diaphragm cell for separation of ω- and α-amino-acids (Synge, R. L. M.) 429
Diazine green, effects on respiration in brain (Case, E. M. & McIlwain, H.) 1
Diazo-reacting substances in maize (Hunter, G.) 265
Diet, high-sucrose, effect on the calcium and phosphorus content of the enamel and dentine of rat incisors (Hartles, R. L.) 245
Diet, hypolipotropic, effect of ingestion on the level of pseudo-cholinesterase in the plasma of male rats (Hawkins R. D. & Nishikawara, M. T.) 276

Diethanolamine as carbon dioxide buffer (Krebs, H. A.) 349
Diethanolamine, autoxidation of (Krebs, H. A.) 349
3:5-Diethoxy-2-hydroxybenzoic acid, synthesis of (Raistrick, H. & Stickings, C. E.) 53
3:5-Diethoxy-2-methoxybenzoic acid, synthesis of (Raistrick, H. & Stickings, C. E.) 53
Diffusion of chlorine into wool (Alexander, P., Gough, D. & Hudson, R. F.) 20
Digestions, electric heater for (King, E. J. & Weedon, W.) lxi
2:3-Dihydroxyphenylalanine in extracts of guinea pig kidney, enzymic decarboxylation of (Blaschko, H. & Langemann, H.) vii
3:5-Diiodo-4-hydroxybenzoates, *n*-alkyl, effect on oxygen consumption in mice (Sheahan, M. M., Wilkinson, J. H. & Maclagan, N. F.) 188
3:5-Diiodotyrosine as inhibitor for precipitin reaction (Banks, T. E., Francis, G. E., Mulligan, W. & Wormall, A.) 371
Dimethyl sulphide, evolution from bracken, 'horsetail' and other plants on treatment with sodium hydroxide (Bywood, R., Challenger, F., Leaver, D. & Whitaker, M. I.) xxx
4:6-Dimethylpyrimidine, metabolism in the rabbit (Bray, H. G., Lake, H. J. & Thorpe, W. V.) 400
Dinitrophenol, depression of oxidative phosphorylation by (Judah, J. D. & Williams-Ashman, H. G.) 33
2:4-Dinitrophenol, effect on accumulation of free glutamate in *Staphylococcus aureus* and *Streptococcus faecalis* (Gale, E. F.) 286
2:4-Dinitrophenol, effect on amylase of pigeon pancreas slices (Hokin, L. E.) 320
2:4-Dinitrophenol, effect on metabolism of *Staphylococcus aureus* (Gale, E. F. & Paine, T. F.) 298
2:4-Dinitrophenol, effect on respiration and phosphorylation in brain (Case, E. M. & McIlwain, H.) 1
2:4-Dinitrophenol, influence on the oxidative breakdown of fatty acids (Fantl, P., Lincoln, G. J. & Nelson, J. F.) 96
N-2:4-Dinitrophenylamino-acids, separation on paper chromatograms (Blackburn, S. & Lowther, A. G.) 126
N-2:4-Dinitrophenyl derivatives of amino sugars, chromatographic separation of (Annison, E. F., James, A. T. & Morgan, W. T. J.) 477
Dinucleotides in hydrolysate of deoxyribonucleic acid (Gordon, A. H. & Reichard, P.) 569
Displacement chromatography on synthetic ion-exchange resins (Partridge, S. M. & Brimley, R. C.) 313
Dissociation constants of amino-acids and displacement from ion-exchange resins (Partridge, S. M. & Brimley, R. C.) 313

Echinenone, probable identity with myxoxanthin (Goodwin, T. W. & Taha, M. M.) 513
§Egg, mammalian, fertilization *in vitro* of (Smith, A. U.) lxiii
§Egg, sperm, interacting substances associated with fertilization (Rothschild, Lord) lxv
Electrical stimulation of sections of mammalian brain, metabolic response *in vitro* to (McIlwain, H.) lvi
Electron micrograph of myofibrils (Perry, S. V.) 257
Electrophoresis of oligonucleotides formed by the enzymic degradation of deoxyribonucleic acid by deoxyribonuclease (Gordon, A. H. & Reichard, P.) 569
Enamel of rat incisors, effect of a high-sucrose diet on the calcium and phosphorus content of (Hartles, R. L.) 245
Enediols, rate of reduction by *Escherichia coli* (Mapson, L. W. & Ingram, M.) 551
Enzymes of carbohydrate metabolism in *Neurospora* (Shepherd, C. J.) 483
Enzymes of isolated nuclei from cells of the cerebral cortex (Richter, D. & Hullin, R. P.) 406
Enzymes, use of organic solvents at low temperature for the separation of (Askonas, B. A.) 42
Epichlorhydrin and esterification of carboxyl groups in wool (Alexander, P., Carter, D., Earland, C. & Ford, O. E.) 629
Epicuticle of wool and oxidation by chlorine (Alexander, P., Gough, D. & Hudson, R. F.) 20
Epoxides and esterification of carboxyl groups in wool (Alexander, P., Carter, D., Earland, C. & Ford, O. E.) 629
Ergothioneine in blood (Hunter, G.) 265
Erythritol, cellulose formation from, by *Acetobacter acetigenum* (Kaushal, R. & Walker, T. K.) 618
Erythrocyte, rabbit, studies on the metabolism of (Muir, H. M., Perrone, J. C. & Popják, G.) iv
Erythrocytes labelled with ^{65}Zn, Studies on (Tupper, R., Watts, R. W. E. & Wormall, A.) xxxvii
Escherichia coli, use for the reduction and estimation of dehydroascorbic acid (Mapson, L. W. & Ingram, M.) 551
Esterase, acetylcholine, of cerebral cortex (Richter, D. & Hullin, R. P.) 406
Esterification of the carboxyl groups in wool (Alexander, P., Carter, D., Earland, C. & Ford, O. E.) 629
Ethanolamine, formation from serine in rat (Arnstein, H. R. V.) 27
Ethanolamine in urine, in a case of primary hepatoma (Dent, C. E., Fowler, D. I. & Walshe, J. M.) xiii
Ethyl red, effect on respiration and phosphorylation in brain (Case, E. M. & McIlwain, H.) 1
Ethylene glycol, cellulose formation from, by *Acetobacter acetigenum* (Kaushal, R. & Walker, T. K.) 618

Faecal lipids of normal and cholesterol-fed rats, component fatty acids (Edwards, D. C. & Cook, R. P.) ix
Faecal volatile acids of normal and cholesterol-fed rats (Thomson, R. O.) x
Faeces, heat-labile B_{12} complex in (Pennington, R. J.) xviii
Faeces, porphyrins present during lead poisoning (Nicholas, R. E. H. & Rimington, C.) 306
Faeces, radioactive iodine in, after administration of phenoidol to rats (Free, A. A., Page, J. E. & Woolett, E. A.) 490
Fat, effect on lipotropic effect of inositol (Best, C. H., Ridout, J. H., Patterson, J. M. & Lucas, C. C.) 448
Fat, horse mesenteric, component acids and glycerides of (Gupta, S. S. & Hilditch, T. P.) 137
Fat, milk, synthesis by perfused, isolated cow udder (Cowie, A. T., Duncombe, W. G., Folley, S. J., French, T. H., Glascock, R. F., Massart, L., Peeters, G. & Popják, G.) xxxix
Fat, milk, utilization in the lactating goat of acetate for the synthesis of (Popják, G., French, T. H. & Folley, S. J.) 411
Fat of rat livers, effect of zinc on (Sadasivan, V.) 527
Fat synthesis by lactating mammary gland slices, stimulation by insulin (Balmain, J. H. & Folley, S. J.) i
Fat, vitamin B_1 sparing action of (Kruhoffer, P.) 608
Fatty acid dehydrogenase, action on *cyclo*hexanecarboxylic acid (Beer, C. T., Dickens, F. & Pearson, J.) 222
Fatty acids, influence of 2:4-dinitrophenol on the oxidative breakdown of (Fantl, P., Lincoln, G. J., & Nelson, J. F.) 96
Fatty acids, milk, formation from acetate in the goat (Popják, G., French, T. H., Hunter, G. D. & Martin, A. J. P.) 612
Fatty acids, milk, mode of formation of (French, T. H., Hunter, G. D., Martin, A. J. P. & Popják, G.) vi
Fatty acids, normal, new method for the chemical degradation of (Hunter, G. S. & Popják, G.) v
Fatty acids of the faecal lipids of normal and cholesterol-fed rats (Edwards, D. C. & Cook, R. P.) ix
§Fertilization, hyaluronidase and (Swyer, G. I. M.) lxiv
§Fertilization *in vitro* of the mammalian egg (Smith, A. U.) lxiii

§Fertilization, sperm-egg interacting substances and metabolic changes associated with (Rothschild, Lord) lxv
Filter, interference strip spectrum light, for photoelectric colorimeter (King, E. J. & Weedon, W.) lxi
Filter-paper chromatography, bridge unit for (Kawerau, E.) 281
Fish tropomyosin and nucleotropomyosin (Hamoir, G.) 146
Flavin-adenine dinucleotide, stabilization of D-amino-acid oxidase by (Burton, K.) 458
Flour, agenized wheat, isolation of a toxic substance from (Campbell, P. N., Work, T. S. & Mellanby, E.) 106
Fluid, manometric (Krebs, H. A.) 240
Fluoride and glutamate used by kidney particles (Judah, J. D. & Williams-Ashman, H. G.) 33
Fluoroacetate poisoning, biochemistry of (Buffa, P., Peters, R. A. & Wakelin, R. W.) 467
Fluorotricarboxylic acid, jamming of tricarboxylic cycle by (Buffa, P., Peters, R. A. & Wakelin, R. W.) 467
Formaldehyde, formation of a cross-link between lysine and tyrosine residues in wool by (Alexander, P., Carter, D. & Johnson, K. G.) 435
Formate, oxidation to carbon dioxide in rat-liver homogenates (Kruhøffer, P.) 604
Formate, role in serine biosynthesis (Kruhoffer, P.) 604
[^{14}C]Formate and biosynthesis of choline in rats (Arnstein, R. R. V.) 27
Freezing, effect on sperm cytochrome (Mann, T.) 386
Fructosans, use of notatin in the determination and detection of glucose as a probable constituent radical of (Palmer, A.) 389
Fructose derivative from artichokes and other Compositae (Bacon, J. S. D. & Edelman, J.) 114
Fructose formation of semen (Mann, T. & Lutwak-Mann, C.) xvi
Fructose-forming tissues, phosphatase activity in (Parr, C. W. & Warren, F. L.) xv
Fructose, inhibition of oxidative phosphorylation by 2:4-dinitrophenol (Fantl, P., Lincoln, G. J. & Nelson, J. F.) 96
Fucose in A substance, oxidation by periodate (Aminoff, D. & Morgan, W. T. J.) 74
Fuller's earth, adjuvant action on virulence-enhancing factor (Smith, H.) 441
Fumaric acid, enzymic method for the estimation of (Nossal, P. M.) xviii
Fumaric acid from succinic acid by succinic dehydrogenase of *Neurospora crassa* (Shepherd, C. J.) 483
Fungi, mould, mechanism of the formation of organic acids by (Chughtai, M. I. D. & Walker, T. K.) 524
Fungi, synthesis of β-carotene by (Garton, G. A., Goodwin, T. W. & Lijinsky, W.) 154
Fungus *Polyporus benzoinus* (Wahl.) Fr., wood-rotting, metabolic products of (Morgan, E. N.) xliii
Furanose and pyranose sugars, R_F values of (Isherwood, F. A. & Jermyn, M. A.) 515
Fuscin, a metabolic product of *Oidiodendron fuscum* Robak (Birkinshaw, J. H., Bracken, A., Michael, S. E. & Raistrick, H.) 67

Galactose in A substance, oxidation by periodate (Aminoff, D. & Morgan, W. T. J.) 74
Galactose in protein of ox lens capsule (Pirie, A.) 368
§Gamones and metabolic changes associated with fertilization (Rothschild, Lord) lxv
Gas-liquid partition chromatography (James, A. T. & Martin, A. J. P.) vii
Gastric mucin, hog, fractionation of (Smith, H.) 441
Gastric mucosa, histidine content of (Hughes, D. E. & Williamson, D. H.) 487
Gentisate, sodium, estimation in plasma or serum (Meade, B. W. & Smith, M. J. H.) xxix
Gentisic acid, metabolism of (Consden, R. & Stanier, W. M.) xiv
Germination of *Orobanche minor* Sm., stimulant involved in (Brown, R., Greenwood, A. D., Johnson, A. W. & Long, A. G.) 559; (Brown, R., Greenwood, A. D., Johnson, A. W., Long, A. G. & Tyler, G. J.) 564
Glands, male accessory of reproduction, effect of malnutrition on the secretory function of (Lutwak-Mann, C. & Mann, T.) xxvi
Globulins, labelled, serological precipitates containing (Banks, T. E., Francis, G. E., Mulligan, W. & Wormall, A.) 180
Globulins, serum, interaction with calcium (Martin, N. H. & Perkins, D. J.) lvi
Gluconic acid, formation by *Aspergillus niger* (Chughtai, M. I. D. & Walker, T. K.) 524
Glucoreductone, reduction by *Escherichia coli* (Mapson, L. W. & Ingram, M.) 551
D-Glucosaccharic, inhibition of β-glucuronidase by (Spencer, B. & Williams, R. T.) 537
Glucosamine hydrochloride from hyaluronic acid (Kaye, M. A. G. & Stacey, M.) 249
Glucose as a probable constituent radical of fructosans, determination and detection by means of notatin (Palmer, A.) 389
Glucose, effect on amylase of pigeon-pancreas slices (Hokin, L. E.) 320
Glucose in protein of ox lens capsule (Pirie, A.) 368
Glucose, phosphorylation by brain homogenates (Case, E. M. & McIlwain, H.) 1
Glucose, respiration of brain slices with (McIlwain, H., Buchel, I. & Cheshire, J. D.) 12
Glucose, supply of energy for accumulation of glutamic acid by *Staphylococcus aureus* (Gale, E. F.) 286
Glucose, use by *Aspergillus niger* (Chughtai, M. I. D. & Walker, T. K.) 524
D-Glucurone, inhibition of β-glucuronidase by (Spencer, B. & Williams, R. T.) 537
Glucuronic acid, conjugation of benzoic acid with, in rabbit (Bray, H. G., Thorpe, W. V. & White, K.) 88
D-Glucuronic acid, inhibition of β-glucuronidase by (Spencer, B. & Williams, R. T.) 537
Glucuronic acids, kinetic study of the conjugation with phenols by the rabbit (Bray, H. G. & White, K.) xliii
β-Glucuronidase, preparation and properties of (Kerr, L. M. H. & Levvy, G. A.) 209
β-Glucuronidase, spectrophotometric determination of using *p*-chlorophenylglucuronide as substrate (Spencer, B. & Williams, R. T.) 537
β-Glucuronidase, use for hydrolysis of urinary glucuronides of rabbit (Parke, D. V. & Williams, R. T.) 621
Glucuronide formation from pyrimidine compounds in rabbit (Bray, H. G., Lake, H. J. & Thorpe, W. V.) 400
Glucuronide formation from sulphamezathine and related compounds in the rabbit (Bray, H. G., Lake, H. J. & Thorpe, W. V.) 400
Glucuronide fraction of rabbit urine after administration of benzene, examination of (Parke, D. V. & Williams, R. T.) 621
Glucuronide synthesis in liver homogenates (Dutton, G. J. & Storey, I. D. E.) xxix
Glucuronides of benzeneazophenol and benzeneazoresorcinol (Smith, J. N. & Williams, R. T.) 546
Glutamate, oxidation of, and phosphorylation (Judah, J. D. & Williams-Ashman, H. G.) 33
L-Glutamic acid decarboxylase from barley (Beevers, H.) 132
Glutamic acid, free, action of inhibitors and antibiotics on the accumulation in *Staphylococcus aureus* (Gale, E. F. & Paine, T. F.) 298
Glutamic acid, free and combined, relationship between accumulation and formation in *Staphylococcus aureus* (Gale, E. F.) 290

Glutamic acid, free, in *Staphylococcus aureus* and *Streptococcus faecalis*, action of inhibitors on the accumulation of (Gale, E. F.) 286
Glutathione as inhibitor of succinic dehydrogenase of *Neurospora crassa* (Shepherd, C. J.) 483
Glutathione, behaviour on paper chromatograms (Lindan, O. & Work, E.) 337
Glutathione, blood, in diabetes (Illing, E. K. B., Gray, C. H. & Lawrence, R. D.) 637, xxxiv
Glutathione, content of rat livers on various diets (Lindan, O. & Work, E.) 344
Glutathione content of yeasts (Lindan, O. & Work, E.) 337
Glutathione, liberation of hydrogen sulphide from, by X-radiation (Dale, W. M. & Davies, J. V.) 129
Glutathione, liver, in dietetic liver necrosis of rats (Lindan, O. & Work, E.) xxxi
Glutathione, reaction with cyanogen chloride (Aldridge, W. N.) 271
Gluten of agenized wheat flour, toxic substance in (Campbell, P. N., Work, T. S. & Mellanby, E.) 106
Glyceraldehyde formation by *Acetobacter acetigenum* (Kaushal, R. & Walker, T. K.) 618
Glycerides in livers of rats, effect of lipotropic factors (Best, C. H., Lucas, C. C., Patterson, J. M. & Ridout, J. H.) 452
Glycerides, mobilization by pituitary extract (Campbell, J. & Lucas, C. C.) 241
Glycerides of a horse mesenteric fat (Gupta, S. S. & Hilditch, T. P.) 137
Glycine, conjugation of benzoic acid with, in rabbit (Bray, H. G., Thorpe, W. V. & White, K.) 88
Glycine, effect of vitamin B_{12} on the conversion to choline (Arnstein, H. R. V. & Neuberger, A.) ii
[α-^{14}C]Glycine and biosynthesis of choline in rats (Arnstein, H. R. V.) 27
[^{14}COOH]Glycine and biosynthesis of choline in rats (Arnstein, H. R. V.) 27
Glycogen in developing teeth of rats (Hartles, R. L.) 245
Glycolaldehyde, formation by *Acetobacter acetigenum* (Kaushal, R. & Walker, T. K.) 618
Glycolysis enzymes, separation by organic solvents (Askonas, B. A.) 42
Goat, formation of milk fatty acids from acetone in (Popják, G., French, T. H., Hunter, G. D. & Martin, A. J. P.) 612
Goat, lactating, utilization of acetate for milk-fat synthesis in (Popják, G., French, T. H. & Folley, S. J.) 411
Gonadotrophins, effect on histaminase (Kapeller-Adler, R.) xxi
Grass levan, glucose in hydrolysates of (Palmer, A.) 389
Grass, rye, isolation of γ-aminobutyric acid (Synge, R. L. M.) 429
Ground joints, standard, volume calibration of apparatus with (Dickens, F.) 385
Groundnut meals, lysine in (Carpenter, K. J. & Ellinger, G. M.) liii
Growth, plant, relationship between the constitution and effect of aromatic chlorine compounds on (Jones, R. L., Metcalfe, T. P. & Sexton, W. A.) 422
Growth response of *Lactobacillus leichmannii* 313 and aeration of the stationary assay medium (Lees, K. A. & Tootill, J. P. R.) i
Guniea pig kidney, enzymic decarboxylation of 2:3-dihydroxyphenylalanine in extracts of (Blaschko, H. & Langemann, H.) vii

Haemagglutination by influenza virus, mucoid from sheep submandibular glands inhibiting (McCrea, J. F.) xlix
Haemoglobin of sheep, effect of nitrate and nitrite (Lewis, D.) 171
Haemoglobin, reaction with cyanogen chloride (Aldridge, W. N.) 271
Haemolymph of solitary locusts, the green pigment of (Goodwin, T. W. & Srisukh, S.) 199
Heater, electric, for micro-Kjeldahl, organic phosphate and other acid digestions (King, E. J. & Weedon, W.) lxi
Hepatoma, primary, ethanolamine in urine in a case of (Dent, C. E., Fowler, D. I. & Walshe, J. M.) xiii
*cyclo*Hexanecarboxylic acid, conversion to benzoic acid in rabbit (Beer, C. T., Dickens, F. & Pearson, J.) 222
Hexokinase in animal tissue, activator of (Weil-Malherbe, H.) xxiii
Hippuric acid, excretion by rabbit after administration of benzene derivatives (Bray, H. G., Thorpe, W. V. & White, K.) 88
Hippuric acid, micro-estimation in biological material (Dickens, F. & Pearson, J.) 216
Histaminase activity in biological fluids, new volumetric method for the determination of (Kapeller-Adler, R.) 99
Histaminase, effect of steroid hormones and gonadotrophins on (Kapeller-Adler, R.) xxi
Histamine, action of histaminase on (Kapeller-Adler, R.) 99
Histidine α-deaminase of mammalian liver (Hall, D. A.) viii
Histidine, estimation by microbiological assay (Hughes, D. E. & Williamson, D. H.) 487
Hog gastric mucin, fractionation of (Smith, H.) 441
§Hormones in the metabolism of the male accessory organs of reproduction (Lutwak-Mann, C.) lxiv
Hormones, steroid, effect on histaminase (Kapeller-Adler, R.) xxi
Horn tyrosine, reaction with oxidizing agents (Alexander, P. & Gough, D.) 504
Horse mesenteric fat, component acids and glycerides of (Gupta, S. S. & Hilditch, T. P.) 137
'Horsetail' (*Equisetum*), evolution of dimethyl sulphide from, on treatment with sodium hydroxide (Bywood, R., Challenger, F., Leaver, D. & Whitaker, M. I.) xxx
Hyaluronic acid in exudate from oedematous sexual skin in rhesus monkeys (Rienits, K. G.) lviii
Hyaluronic acid, methylation of (Kaye, M. A. G. & Stacey, M.) 249
§Hyaluronidase and fertilization (Swyer, G. I. M.) lxiv
Hydroaromatic compounds, aromatization by animal tissues (Beer, C. T., Dickens, F. & Pearson, J.) 222
Hydrogen sulphide, liberation by X-radiation from sulphur compounds (Dale, W. M. & Davies, J. V.) 129
Hydrolysis of the chloroform-insoluble conjugated adrenocortical steroids in human urine (Cox, R. I. & Marrian, G. F.) xxxiii
Hydroxybenzenes, R_F values and colour reaction of (Parke, D. V. & Williams, R. T.) 621
Hydroxyl groups, effect of orientation on R_F values of sugars (Isherwood, F. A. & Jermyn, M. A.) 515
Hydroxylation of sulphamezathine and related compounds in rabbit (Bray, H. G., Lake, H. J. & Thorpe, W. V.) 400
Hydroxylation of sulphonamides in the rabbit (Bray, H. G., Lake, H. J. & Thorpe, W. V.) 400
8-Hydroxyquinoline, effect on metabolism of *Staphylococcus aureus* (Gale, E. F. & Paine, T. F.) 298
Hydroxytetronic acid, reduction by *Escherichia coli* (Mapson, L. W. & Ingram, M.) 551
Hydroxytryptophan and derivatives, chromatography of (Cornforth, J. W., Dalgliesh, C. E. & Neuberger, A.) 598
DL-Hydroxytryptophan, synthesis of (Cornforth, J. W., Cornforth, R. H., Dalgliesh, C. E. & Neuberger, A.) 591
Hypochlorite, reaction with tyrosine in wool (Alexander, P. & Gough, D.) 504

Hypolipotropic diet, effect of the ingestion on the level of pseudo-cholinesterase in the plasma of male rats (Hawkins, R. D. & Nishikawara, M. T.) 276

Immunochemistry, oxidation of human blood-group A substance with the periodate ion (Aminoff, D. & Morgan, W. T. J.) 74
Immunology, use of radioactive isotopes in (Banks, T. E., Francis, G. E., Mulligan, W. & Wormall, A.) 180, 370
Incisors, rat, effect of a high-sucrose diet on the calcium and phosphorus content of the enamel and dentine of (Hartles, R. L.) 245
Indole derivatives, synthesis of DL-β-3-oxindolylalanine from (Cornforth, J. W., Cornforth, R. H., Dalgliesh, C. E. & Neuberger, A.) 591
Influenza virus, mucoid from sheep submandibular glands inhibiting haemagglutination by (McCrea, J. F.) xlix
Inhibition of oxidative phosphorylation (Judah, J. D. & Williams-Ashman, H. G.) 33
Inhibitors, action on the accumulation of free glutamic acid and the formation of combined glutamate in *Staphylococcus aureus* (Gale, E. F. & Paine, T. F.) 298
Inhibitors, action on the accumulation of free glutamic acid in *Staphylococcus aureus* and *Streptococcus faecalis* (Gale, E. F.) 286
Inhibitors, ^{131}I-labelled, in study of precipitin reaction (Banks, T. E., Francis, G. E., Mulligan, W. & Wormall, A.) 371
Inositol, effect of fat on the lipotropic effect of (Best, C. H., Ridout, J. H., Patterson, J. M., & Lucas, C. C.) 448
Inositol, rate of lipotropic action under special dietary conditions (Best, C. H., Lucas, C. C., Patterson, J. M. & Ridout, J. H.) 452
Inositol, statistical evaluation of the lipotropic action of (Best, C. H., Ridout, J. H., Patterson, J. M. & Lucas, C. C.) 448
Insectoverdins as pigments of locusts (Goodwin, T. W. & Srisukh, S.) 199
Insulin, amide and free carboxyl groups of (Chibnall, A. C. & Rees, M. W.) xlvii
Insulin, stimulation of fat synthesis by lactating mammary gland slices by (Balmain, J. H. & Folley, S. J.) i
Integument of solitary locusts, green pigment of (Goodwin, T. W. & Srisukh, S.) 199
Interference strip spectrum light filter for photoelectric colorimeter (King, E. J. & Weedon, W.) lxi
Intestine, small, of the rat, selective absorption of stereoisomers of amino-acids from loops of (Gibson, Q. H. & Wiseman, G.) 426
Inulin, glucose in hydrolysates of (Palmer, A.) 389
Iodate, silver, method for the determination of chloride (King, E. J. & Bain, D. S.) 51
Iodine-cortisone complex (Bassil G. T. & Boscott, R. J.) xlviii
Iodine derivatives of benzoic acids, thyroxine-inhibitory action of (Wilkinson, J. H., Sheahan, M. M. & Maclagan, N. F.) iii
Iodine, radioactive, absorption and excretion of pheniodol labelled with (Free, A. A., Page, J. E. & Woollett, E. A.) 490
Iodine, radioactive, effect of resorcinol on the uptake by rat thyroid of (Arnott, D. G. & Doniach, I.) lxii
Iodoacetate, effect on amylase of pigeon pancreas slices (Hokin, L. E.) 320
Ion-exchange resins in study of hyaluronic acid (Kaye, M. A. G. & Stacey, M.) 249
Ion-exchange resins, synthetic, displacement chromatography on (Partridge, S. M. & Brimley, R. C.) 313
Ionophoresis in silica jelly for separation of ω- and α-amino-acids (Synge, R. L. M.) 429
Irisin, glucose in hydrolysates of (Palmer, A.) 389
Iron, serum, levels in patients suffering from blood disorders (White, J. C. & Ventura, S.) lv
Isatin derivatives, synthesis of DL-β-3-oxindolylalanine from (Cornforth, J. W., Cornforth, R. H., Dalgliesh, C. E. & Neuberger, A.) 591
*Isotopes, radioactive and stable, equipment used for the measurement of (Banks, T. E., Burnop, V. C. E., Francis, G. E., Mulligan, W. & Wormall, A.) xlv
Isotopes, radioactive, quantitative studies on the precipitin reaction using antigens and antibodies labelled with (Francis, G. E., Mulligan, W. & Wormall, A.) xxxvi
Isotopes, radioactive, use in immunological investigations (Banks, T. E., Francis, G. E., Mulligan, W. & Wormall, A.) 371
Isotopes, radioactive, use in immunology (Banks, T. E., Francis, G. E., Mulligan, W. & Wormall, A.) 180
*Isotopically labelled compounds, vacuum manifold used for the micro-synthesis of (Burnop, V. C. E.) xlv

Jerusalem artichoke, carbohydrates of (Bacon, J. S. D. & Edelman, J.) 114
Joints, standard ground, volume calibration of apparatus with (Dickens, F.) 385

Kaolin, adjuvant action on virulence-enhancing factor (Smith, H.) 441
Keratin, tyrosine of, reaction with oxidizing agents (Alexander, P. & Gough, D.) 504
α-Keratose, reaction with oxidizing agents (Alexander, P. & Gough, D.) 504
α-Ketoglutarate, effect on the potassium level of guinea pig kidney slices (Krebs, H. A., Eggleston, L. V. & Terner, C.) 530
α-Ketoglutarate, formation from citrate by yeast extracts (Foulkes, E. C.) 378
Ketosis and blood glutathione in diabetes (Illing, E. K. B., Gray, C. H. & Lawrence, R. D.) 637
Kidney, guinea pig, enzymic decarboxylation of 2:3-dihydroxyphenylalanine in extracts of (Blaschko, H. & Langemann, H.) vii
Kidney, hog, histaminase preparation from (Kapeller-Adler, R.) 99
Kidney homogenates, poisoned, isolation of active tricarboxylic acid fraction from (Buffa, P., Peters, R. A. & Wakelin, R. W.) 467
Kidney, mitochondrial fraction, phosphorylating enzymes of (Judah, J. D. & Williams-Ashman, H. F.) 33
Kidney, potassium level on incubation (Krebs, H. A., Eggleston, L. V. & Terner, C.) 530
Kidney, rabbit and rat, aromatization by (Beer, C. T., Dickens, F. & Pearson, J.) 222
Kinetic studies of the conjugation of phenols with sulphuric acids by the rabbit (Bray, H. G. & White, K.) xliii
Kinetic studies of the metabolism of foreign organic compounds (Bray, H. G., Thorpe, W. V. & White, K.) 88
Kinetics of barley glutamic acid decarboxylase (Beevers, H.) 132
Kinetics of β-glucuronidase (Spencer, B. & Williams R. T.) 537
Kinetics of the reaction of wool with chlorine solution (Alexander, P., Gough, D. & Hudson, R. F.) 20
Kynurenic acid, chromatography of (Cornforth, J. W., Dalgliesh, C. E. & Neuberger, A.) 598
Kynurenine, chromatography of (Cornforth, J. W., Dalgliesh, C. E. & Neuberger, A.) 598

Lactic acid, estimation in silage (Barnett, A. J. G.) lvii
Lactobacillus arabinosus, decarboxylation of L-malic acid by (Nossal, P. M.) xvii
Lactobacillus leichmannii 313, growth response of (Lees, K. A. & Tootill, J. P. R.) i
Lactyladrenaline extracts in an adrenal medullary tumour (Crawford, T. B. B.) 203

Lead poisoning, porphyrins in urine and faeces during (Nicholas, R. E. H. & Rimington, C.) 306
Lens, ox, composition of capsule of (Pirie, A.) 368
L-Leucine as inhibitor of D-amino-acid oxidase (Burton, K.) 458
Leucines, separation from protein hydrolysates (Partridge, S. M. & Brimley, R. C.) 313
Leucocytes labelled with ^{65}Zn, studies on (Tupper, R., Watts, R. W. E. & Wormall, A.) xxxvii
*Leucocytes, separation from whole blood by flotation on plasma albumin solutions (Tupper, R. & Watts, R. W. E.) xlv
Light and β-carotene production by *Phycomyces blakesleeanus* (Garton, G. A., Goodwin, T. W. & Lijinsky, W.) 154
Light filter, interference strip spectrum, for photoelectric colorimeter (King, E. J. & Weedon, W.) lxi
Linoleic acid in horse fats (Gupta, S. S. & Hilditch, T. P.) 137
Linseed as source of germination factor for *Orobanche minor* Sm. (Brown, R., Greenwood, A. D., Johnson, A. W. & Long, A. C.) 559
Lipid content of mouse tissues (Campbell, J. & Lucas, C. C.) 241
Lipid mobilized by anterior pituitary extract (Campbell, J. & Lucas, C. C.) 241
Lipid phosphate, trichloroacetic acid precipitation method for (King, E. J. & Weedon, W.) lx
Lipids, faecal, of normal and cholesterol-fed rats, component fatty acids of (Edwards, D. C. & Cook, R. P.) ix
Lipids, liver, of rats (Best, C. H., Ridout, J. H., Patterson, J. M. & Lucas, C. C.) 448; (Best, C. H., Lucas, C. C., Patterson, J. M. & Ridout, J. H.) 452
Lipids, of goat milk, synthesis of (Popják, G., French, T. H. & Folley, S. J.) 411
Lipids of human sebum (MacKenna, R. M. B., Wheatley, V. R. & Wormall, A.) xxxviii
Lipids of *Phycomyces blakesleeanus* Burgeff (Garton, G. A., Goodwin, T. W. & Lijinsky, W.) 154
Lipotropic action of choline and inositol under special dietary conditions, rates of (Best, C. H., Lucas, C. C., Patterson, J. M. & Ridout, J. H.) 452
Lipotropic action of inositol, statistical evaluation of (Best, C. H., Ridout, J. H., Patterson, J. M. & Lucas, C. C.) 448
Lipovitellin, labelled, serological precipitates containing (Banks, T. E., Francis, G. E., Mulligan, W. & Wormall, A.) 180
Liquid-gas partition chromatography (James, A. T., & Martin, A. J. P.) vii
Liver, accumulation of lipid in (Campbell, J. & Lucas, C. C.) 241
Liver aldehyde oxidase, enzymic oxidation of pyridoxal by (Schwartz, R. & Kjeldgaard, N. O.) 333
Liver, chromatographic fractionation of the water-soluble constituents of (Campbell, P. N.) xix
Liver glutathione in dietetic liver necrosis of rats (Lindan, O. & Work, E.) xxxi
Liver homogenates, glucuronide synthesis in (Dutton, G. J. & Storey, I. D. E.) xxix
Liver lipids of rats (Best, C. H., Ridout, J. H., Patterson, J. M. & Lucas, C. C.) 448; (Best, C. H., Lucas, C. C., Patterson, J. M. & Ridout, J. H.) 452
Liver, mammalian, histidine α-deaminase of (Hall, D. A.) viii
Liver, mitochondrial fraction, phosphorylating enzymes of (Judah, J. D. & Williams-Ashman, H. G.) 33
Liver necrosis in rats, amino-acid composition of yeasts used to produce (Lindan, O. & Work, E.) 337
Liver necrosis in rats, nutritive properties of yeasts used to to produce (Lindan, O. & Work, E.) 344
Liver of rats on a hypolipotropic diet (Hawkins, R. D. & Nishikawara, M. T.) 276
Liver, potassium gradient between tissue and environment in (Krebs, H. A., Eggleston L. V. & Terner, C.) 530
Liver, rabbit, and rat, aromatization by (Beer, C. T., Dickens, F. & Pearson, J.) 222
Liver, rat, effect of feeding zinc on (Sadasivan, V.) 527
Liver, rat, effect of starvation on the pseudo-cholinesterase activity of (Harrison, M. F. & Brown, L. M.) 151
Liver, rat, transamination and oxidation of L-tyrosine with the formation of acetoacetate by (Le May-Knox, M. & Fox, W. E.) xxii
Liver slices, rat, biosynthesis of serine in (Kruhøffer, P.) 604
Liver slices, rat, metabolizing octanoate and pyruvate, respiration of (Fantl, P., Lincoln, G. J. & Nelson, J. F.) 96
Locusts, biochemistry of (Goodwin, T. W. & Srisukh, S.) 199
Lysine and tyrosine residues in wool, formation by formaldehyde of a cross-link between (Alexander, P., Carter, D. & Johnson, K. G.) 435
Lysine in groundnut meals (Carpenter, K. J. & Ellinger, G. M.) liii

Magnesium activation of adenosinetriphosphatase of myofibrils (Perry, S. V.) 257
Magnesium carbonate as an adsorbent for chromatography of porphyrins (Nicholas, R. E. H.) 309
Magnesium, effect on metabolism of citrate by yeast extracts (Foulkes, E. C.) 378
Magnesium oxide as an adsorbent for chromatography of porphyrins (Nicholas, R. E. H.) 309
Maize, as a possible precursor of ergothioneine (Hunter, G.) 265
Maize, bound form of nicotinic acid present in, biological activity for the rat of (Kodicek, E.) viii
Maize, diazo-reacting substances in (Hunter, G.) 265
§Male accessory organs of reproduction, hormonal and nutritional factors in the metabolism of (Lutwak-Mann, C.) lxiv
L-Malic acid, decarboxylation by *Lactobacillus arabinosus* (Nossal, P. M.) xvii
L-Malic acid, enzymic method for the estimation of (Nossal, P. M.) xviii
Malnutrition, effect on the secretory function of accessory glands of reproduction (Lutwak-Mann, C. & Mann, T.) xxvi
Malonic acid as inhibitor of succinic dehydrogenase of *Neurospora crassa* (Shepherd, C. J.) 483
Maltase of *Clostridium butyricum* (Whelan, W. J. & Nasr, H.) 416
§Mammalia, composition, metabolism and survival of semen of (Mann, T.) lxiii
§Mammalia, fertilization *in vitro* of the egg of (Smith, A. U.) lxiii
Mammary gland slices, lactating, stimulation by insulin of fat synthesis by (Balmain, J. H. & Folley, S. J.) i
Manometer constants, nomograms for (Dixon, M.) 575
Manometers, Warburg, volume calibration of (Dickens, F.) 385
Manometric fluid (Krebs, H. A.) 240
Manometric measurement of cell metabolism, use of carbon dioxide buffers in (Krebs, H. A.) 349
Marrow, rat bone, effect of vitamin B deficiency on nucleic acid phosphorus content of (Lutwak-Mann, C.) xxv
Meals, groundnut, lysine in (Carpenter, K. J. & Ellinger, G. M.) liii
Meconium, porphyrins in (Nicholas, R. E. H. & Rimington, C.) 306
Medullary tumour, adrenal, derivatives of adrenaline and noradrenaline in an extract of (Crawford, T. B. B.) 203

Melting points and R_F values of sugars (Isherwood, F. A. & Jermyn, M. A.) 515
Mepacrine as inhibitor of D-amino-acid oxidase (Burton, K.) 458
Mesenteric fat, horse, component acids and glycerides of (Gupta, S. S. & Hilditch, T. P.) 137
Mesobiliverdin in pigments of locusts (Goodwin, T. W. & Srisukh, S.) 199
Metabolism, cell, use of carbon dioxide buffers in manometric measurements of (Krebs, H. A.) 349
Metabolism of foreign organic compounds, kinetic studies of (Bray, H. G., Thorpe, W. V. & White, K.) 88
§Metabolism of mammalian semen (Mann, T.) lxiii
Methaemoglobinaemia of sheep following administration of nitrate or nitrite (Lewis, D.) 171
[^{14}C] Methanol and biosynthesis of choline in rats (Arnstein, H. R. V.) 27
Methionine derivative, probable identity with toxic substance of agenized wheat flour (Campbell, P. N., Work, T. S. & Mellanby, E.) 106
Methionine, effect on plasma pseudo-cholinesterase of rats (Hawkins, R. D. & Nishikawara, M. T.) 276
L-Methionine, separation from protein hydrolysates (Partridge, S. M. & Brimley, R. C.) 313
Methyl cellosolve as a developing solvent in paper partition chromatography (Bender, A. E.) xv
Methyl groups of choline, biosynthesis by the rat (Arnstein, H. R. V.) 27
Methylation of hyaluronic acid (Kaye, M. A. G. & Stacey, M.) 249
5-Methylcytosine in deoxypentose nucleic acids (Wyatt, G. R.) 584
5-Methylcytosine in nucleic acids, recognition and estimation of (Wyatt, G. R.) 581
Methyl-D-glucosides, cellulose formation from, by *Aerobacter acetigenum* (Kaushal, R. & Walker, T. K.) 618
Methylhistidine, free, occurrence in urine (Searle, J. M. & Westall, R. G.) 1 (*Proc.*)
Mice, effect of *n*-alkyl 3:5-diiodo-4-hydroxybenzoates on the oxygen consumption in (Sheahan, M. M., Wilkinson, J. H. & Maclagan, N. F.) 188
Microbiological assay, removal of acid by trioctylamine from samples for (Hughes, D. E. & Williamson, D. H.) 487
Micro-Kjeldahl digestions, electric heater for (King, E. J. & Weedon, W.) lxi
Micro-organisms, biochemistry of (Raistrick, H. & Stickings, C. E.) 53; (Birkinshaw, J. H., Bracken, A., Michael, S. E. & Raistrick, H.) 67
Migration methods, electrical, for separation of ω- and α-amino-acids (Synge, R. L. M.) 429
Milk-fat synthesis by the perfused, isolated cow udder (Cowie, A. T., Duncombe, W. G., Folley, S. J., French, T. H., Glascock, R. F., Massart, L., Peeters, G. & Popják, G.) xxxix
Milk-fat synthesis in the lactating goat, utilization of acetate for (Popják, G., French, T. H. & Folley, S. J.) 411
Milk fatty acids, formation from acetate in the goat (Popják, G., French, T. H., Hunter, G. D. & Martin, A. J. P.) 612
Milk fatty acids, mode of formation of (French, T. H., Hunter, G. D., Martin, A. J. P. & Popják, G.) vi
Milk, human, partition of vitamin A activity in (Chanda, R., Owen, E. C. & Cramond, B.) xlii
Mitochondria of liver and kidney (Judah, J. D. & Williams-Ashman, H. G.) 33
Molybdate, catalytic effect on the hydrolysis of phosphoric esters (Weil-Malherbe, H.) xxiv
Monkeys, rhesus, hyaluronic acid in exudate from oedematous sexual skin in (Rienits, K. G.) lviii
Morphology of wool and rate of reaction with oxidizing agents (Alexander, P., Gough, D. & Hudson, R. F.) 20
Mould fungi, mechanism of the formation of organic acids by (Chughtai, M. I. D. & Walker, T. K.) 524
Mucic acid, inhibition of β-glucuronidase by (Spencer, B. & Williams, R. T.) 537
Mucins, virulence-enhancing factor of (Smith, H.) 441
Mucoid from sheep submandibular glands inhibiting haemagglutination by influenza virus (McCrea, J. F.) xlix
Mucoids, blood-group, separation of amino sugars from (Annison, E. F., James, A. T. & Morgan, W. T. J.) 477
Mucosa, gastric, histidine content of (Hughes, D. E. & Williamson, D. H.) 487
Muscle extract, rabbit, use of organic solvents at low temperature for the separation of enzymes in (Askonas, B. A.) 42
Muscle, fish, proteins of (Hamoir, G.) 146
Muscle, histidine content of (Hughes, D. E. & Williamson, D. H.) 487
Muscle, skeletal, adenosinetriphosphatase activity of myofibrils isolated from (Perry, S. V.) 257
Muscle, smooth, potassium gradient between tissue and environment in (Krebs, H. A., Eggleston, L. V. & Terner, C.) 530
Myofibrils isolated from skeletal muscle, adenosinetriphosphatase activity of (Perry, S. V.) 257
Myokinase activity of myofibril preparations (Perry, S. V.) 257
Myosin, actomyosin-forming ability of (Perry, S. V.) 257
Myxoxanthin, probable identity of (Goodwin, T. W. & Taha, M. M.) 513

Necrosis, dietetic liver, of rats, liver glutathione and ascorbic acid in (Lindan, O. & Work, E.) xxxi
Necrosis, liver, in rats, amino-acid composition of yeasts used to produce (Lindan, O. & Work, E.) 337
Necrosis, liver, in rats, nutritive properties of yeasts used to produce (Lindan, O. & Work, E.) 344
Neurospora, enzymes of carbohydrate metabolism in (Shepherd, C. J.) 483
Neutral red, effects on respiration in brain (Case, E. M. & McIlwain, H.) 1
Nicotine, effects on respiration in brain (Case, E. M. & McIlwain, H.) 1
Nicotinic acid present in maize, bound form, biological activity for the rat of (Kodicek, E.) viii
Ninhydrin, action of amino-acids after paper chromatography (Fowden, L.) 327
Nitratase of *Escherichia coli* (Mapson, L. W. & Ingram, M.) 551
Nitrate, metabolism in sheep (Lewis, D.) 175
Nitrate, reduction in the rumen of sheep (Lewis, D.) 171
Nitrite, interference with determination of dehydroascorbic acid by *Escherichia coli* (Mapson, L. W. & Ingram, M.) 551
Nitrite, metabolism in sheep (Lewis, D.) 171
Nitrobenzene, metabolism in rabbits (Robinson, D., Smith, J. N. & Williams, R. T.) xxvii
Nitrogen content of rat livers on various diets (Lindan, O. & Work, E.) 344
Nitrogen content of yeasts (Lindan, O. & Work, E.) 337
Nitrophenols, metabolism in rabbits (Robinson, D., Smith, J. N. & Williams, R. T.) xxvii
Nomograms for manometer constants (Dixon, M.) 575
Noradrenaline derivatives in an extract of an adrenal medullary tumour (Crawford, T. B. B.) 203
Normal biochemical values for whole blood plasma (Wootton, I. D. P., King, E. J., Maclean Smith, I. & Haslam, R.) lix
Notatin, use in the determination and detection of glucose as a probable constituent radical of fructosans (Palmer, A.) 389

Nuclei isolated from cells of the cerebral cortex (Richter, D. & Hullin, R. P.) 406
Nucleic acid in fish muscle proteins (Hamoir, G.) 146
Nucleic acid phosphorus content of rat bone marrow, effect of vitamin B deficiency on (Lutwak-Mann, C.) xxv
Nucleic acids, deoxypentose, purine and pyrimidine composition of (Wyatt, G. R.) 584
Nucleic acids, recognition and estimation of 5-methylcytosine in (Wyatt, G. R.) 581
Nucleotropomyosin of fish (Hamoir, G.) 146
§Nutrition in the metabolism of the male accessory organs of reproduction (Lutwak-Mann, C.) lxiv

Octanoate, metabolism by rat-liver slices (Fantl, P., Lincoln, G. J. & Nelson, J. F.) 96
Oestrogens and phenols, urinary, paper chromatographic separation of (Boscott, R. J.) xlvii
Oidiodendron fuscum Robak, fuscin, a metabolic product of (Birkinshaw, J. H., Bracken, A., Michael, S. E. & Raistrick, H.) 67
Oleic acid as a source of volatile fatty acids of milk, uncertainty about (Popják, G., French, T. H. & Folley, S. J.) 411
Oleic acid, biogenesis in mammary gland of goat (Popják, G., French, T. H., Hunter, G. D. & Martin, A. J. P.) 612
Oligonucleotides formed by the enzymic degradation of deoxyribonucleic acid by deoxyribonuclease, electrophoresis of (Gordon, A. H. & Reichard, P.) 569
Orobanche minor Sm., stimulant involved in the germination of (Brown, R., Greenwood, A. D., Johnson, A. W. & Long, A. G.) 559; (Brown, R., Greenwood, A. D., Johnson, A. W., Long, A. G. & Tyler, G. J.) 564
Ovalbumin, labelled, serological precipitates containing (Banks, T. E., Francis, G. E., Mulligan, W. & Wormall, A.) 180
Ox lens capsule, composition of (Pirie, A.) 368
Oxalic acid, formation by *Aspergillus niger* (Chughtai, M. I. D. & Walker, T. K.) 524
Oxaloacetate, formation from citrate by yeast extract (Foulkes, E. C.) 378
Oxaloacetate, probable condensation in fluoroacetate (Buffa, P., Peters, R. A. & Wakelin, R. W.) 467
Oxaloacetic acid as inhibitor of succinic dehydrogenase of *Neurospora crassa* (Shepherd, C. J.) 483
Oxidase, D-amino-acid, stabilization by flavin-adenine dinucleotide, substrates and competitive inhibitors (Burton, K.) 458
Oxidase, liver aldehyde, enzymic oxidation of pyridoxal by (Schwartz, R. & Kjeldgaard, N. O.) 333
Oxidation breakdown of fatty acids, influence of 2:4-dinitrophenol on (Fantl, P., Lincoln, G. J. & Nelson, J. F.) 96
Oxidation of L-tyrosine by rat liver with the formation of acetoacetate (Le May-Knox, M. & Knox, W. E.) xxii
Oxidizing agents, reaction with wool (Alexander, P., Gough, D. & Hudson, R. F.) 20; (Alexander, P. & Gough, D.) 504
β-3-Oxindolylalanine (hydroxytryptophan) and derivatives, chromatography of (Cornforth, J. W., Dalgliesh, C. E. & Neuberger, A.) 598
DL-β-Oxindolylalanine (DL-hydroxytryptophan), synthesis of (Cornforth, J. W., Cornforth, R. H., Dalgliesh, C. E. & Neuberger, A.) 591
Oxygen consumption in mice, effect of *n*-alkyl 3:5-diiodo-4-hydroxybenzoates on (Sheahan, M. M., Wilkinson, J. H. & Maclagan, N. F.) 188
Oxythiamine, improved method for preparation of (Rydon, H. N.) 383

Palmitic acid, biogenesis in mammary gland of goat (Popják, G., French, T. H., Hunter, G. D. & Martin, A. J. P.) 612
Pancreas, potassium gradient between tissue and environment in (Krebs, H. A., Eggleston, L. V. & Terner, C.) 530
Pancreas slices, pigeon, amino-acid requirements of amylase synthesis by (Hokin, L. E.) xl
Paper chromatograms, separation of *N*-2:4-dinitrophenyl amino-acids on (Blackburn, S. & Lowther, A. G.) 126
Paper chromatography, estimation of amino-acids by (Lindan, O. & Work, E.) 337
Paper chromatography of amino- and acetamido-hydroxybenzoic acids (Bray, H. G., Thorpe, W. V. & Wood, P. B.) 394
Paper chromatography of porphyrins (Nicholas, R. E. H. & Rimington, C.) 306
Paper chromatography, quantitative recovery and colorimetric estimation of amino-acids separated by (Fowden, L.) 327
Paper partition chromatography, methyl cellosolve as developing solvent in (Bender, A. E.) xv
Parathion, cholinesterase inhibition by (Diggle, W. M. & Gage, J. C.) xxv
Partition chromatography, liquid-gas (James, A. T. & Martin, A. J. P.) vii
Partition chromatography, paper, methyl cellosolve as a developing solvent in (Bender, A. E.) xv
Penicillin, effect on metabolism of *Staphylococcus aureus* (Gale, E. F. & Paine, T. F.) 298
Pentosenucleic acid in fish muscle proteins (Hamoir, G.) 146
Pentoses, cellulose formation from, by *Acetobacter acetigenum* (Kaushal, R. & Walker, T. K.) 618
Peptide nature of virulence-enhancing factor of mucin (Smith, H.) 441
Peracetic acid, reaction with tyrosine in wool (Alexander, P. & Gough, D.) 504
Periodate ion, oxidation of the human blood-group A substance with (Aminoff, D. & Morgan, W. T. J.) 74
Periodate oxidation of blood-group A substance (Aminoff, D. & Morgan, W. T. J.) 74
Permanganate in the volumetric determination of histaminase (Kapeller-Adler, R.) 99
Permanganate, reaction with tyrosine in wool (Alexander, P. & Gough, D.) 504
*Perspex, coloured, light filters of (King, E. J. & Ventura, S.) lxi
Perspex, estimation of protein in urine and C.S.F. with permanent turbidimetric standards of (King, E. J.) 50
Perspex, preparation of turbidimetric standards made of (Haslam, J. & Squirrell, D. C. M.) 48
*Perspex standards, cloudy, for the turbidimetric estimation of protein and chloride (King, E. J., Webster, T. A. & Haslam, J.) lxi
Phalloidin, structure and absorption spectra of (Cornforth, J. W., Dalgliesh, C. E. & Neuberger, A.) 598
Pheniodol labelled with radioactive iodine, absorption and excretion of (Free, A. A., Page, J. E. & Woollett, E. A.) 490
Phenols and oestrogens, urinary, paper chromatographic separation of (Boscott, R. J.) xlvii
Phenols, kinetic studies of the conjugation with sulphuric and glucuronic acids by the rabbit (Bray, H. G. & White, K.) xliii
Phenolsulphatase, spectrophotometric determination of (Robinson, D., Spencer, B. & Williams, R. T.) xxviii
Phenosafranine, effect on respiration and phosphorylation in brain (Case, E. M. & McIlwain, H.) 1
Phenylcysteine, excretion of phenylsulphuric acid after administration of (Parke, D. V. & Williams, R. T.) xxvii
Phenylglucuronide, isolation from rabbit urine after administration of benzene (Parke, D. V. & Williams, R. T.) 621

α-Phenyl-β-(4-hydroxy-3:5-diiodophenyl)-propionic acid labelled with radioactive iodine, absorption and excretion of (Free, A. A., Page, J. E. & Woollett, E. A.) 490
Phenylmercapturic acid, determination in urine (Parke, D. V. & Williams, R. T.) 624
Phenylmercapturic acid, excretion of phenylsulphuric acid after administration of (Parke, D. V. & Williams, R. T.) xxvii
Phenylsulphuric acid, excretion after administration of phenylmercapturic acid and phenylcysteine (Parke, D. V. & Williams, R. T.) xxvii
Phosphatase activity in fructose-forming tissues (Parr, C. W. & Warren, F. L.) xv
Phosphatase of cerebral cortex (Richter, D. & Hullin, R. P.) 406
Phosphatase, seminal, fructose formation and (Mann, T. & Lutwak-Mann, C.) xvi
Phosphate, inorganic, of brain (McIlwain, H., Buchel, I. & Cheshire, J. D.) 12
Phosphate, lipid, trichloroacetic acid precipitation method for (King, E. J. & Weedon, W.) lx
Phosphocreatine of brain (McIlwain, H., Buchel, I. & Cheshire, J. D.) 12
Phosphomonoesterases in human tissues, specificity of (Reis, J. L.) 548
Phosphoric esters, catalytic effect of molybdate on the hydrolysis of (Weil-Malherbe, H.) xxiv
Phosphorus content of the enamel and dentine of rat incisors, effect of a high-sucrose diet on (Hartles, R. L.) 245
Phosphorus, nucleic acid, content of rat bone marrow, effect of vitamin B deficiency on (Lutwak-Mann, C.) xxv
Phosphorylation in preparations from mammalian brain (Case, E. M. & McIlwain, H.) 1
Phosphorylation, oxidative, of fructose, inhibition by 2:4-dinitrophenol (Fantl, P., Lincoln, G. J. & Nelson, J. F.) 96
Phosphorylation, oxidative, inhibition of (Judah, J. D. & Williams-Ashman, H. G.) 33
Photoelectric colorimeter, interference strip spectrum light filter (King, E. J. & Weedon, W.) lxi
Phthalamic acid metabolism in rabbit (Bray, H. G., Hybs, Z. & Thorpe, W. V.) 192
Phycoerythrin, chromatography of (Swingle, S. M. & Tiselius, A.) 171
Phycomyces blakesleeanus Burgeff, synthesis of β-carotene by (Garton, G. A., Goodwin, T. W. & Lijinsky, W.) 154
Pigeon pancreas slices, amino-acid requirements of amylase synthesis by (Hokin, L. E.) xl
Pigeon pancreas, synthesis and secretion *in vitro* of amylase by (Hokin, L. E.) 320
Pigment of the haemolymph and integument of solitary locusts (Goodwin, T. W. & Srisukh, S.) 199
Pilocarpine, effect on amylase of pigeon pancreas slices (Hokin, L. E.) 320
Pituitary extract, anterior, lipid mobilized by (Campbell, J. & Lucas, C. C.) 241
Plant growth, relationship between constitution and effect of aromatic chlorine compounds on (Jones, R. L., Metcalfe, T. P. & Sexton, W. A.) 422
§Plants, biochemistry of sexual reproduction in (Hawker, L. E.) lxv
Plants, evolution of dimethyl sulphide from on treatment with sodium hydroxide (Bywood, R., Challenger, F., Leaver, D. & Whitaker, M. I.) xxx
Plasma, determination of chloride in, by a silver iodate method (King, E. J. & Bain, D. S.) 51
Plasma, estimation of sodium gentisate in (Meade, B. W. & Smith, M. J. H.) xxix
Plasma fatty acids, isotope content after administration of ^{14}C (Popják, G., French, T. H. & Folley, S. J.) 411
Plasma, normal biochemical values for (Wootton, I. D. P., King, E. J., Maclean Smith, I. & Haslam, R.) lix
Plasma of male rats, effect of the ingestion of a hypolipotropic diet on the level of pseudo-cholinesterase in (Hawkins, R. D. & Nishikawara, M. T.) 276
Plasma of rats on a hypolipotropic diet (Hawkins, R. D. & Nishikawara, M. T.) 276
Polyporenic acid C of *Polyporus benzoinus* (Morgan, E. N.) xliii
Polyporus benzoinus (Wahl.) Fr., metabolic products of the wood-rotting fungus (Morgan, E. N.) xliii
Porphobilinogen, excretion in acute porphyria (Gray, C. H.) liv
Porphyrin metabolism in disorders of the blood-forming organs (White, J. C. & Ventura, S.) lv
Porphyrin precursors, naturally occurring, nature of (Gray, C. H.) liv
Porphyrins, chromatography of (Nicholas, R. E. H.) 309
Porphyrins, paper chromatography of (Nicholas, R. E. H. & Rimington, C.) 306
Potassium, *in vitro* measurements of the turnover rate in brain and retina (Krebs, H. H., Eggleston, L. V. & Terner, C.) 530
Potassium, interference in the determination of sodium, effect of temperature on (Harrison, M. F.) 283
Precipitin inhibition tests (Banks, T. E., Francis, G. E., Mulligan, W. & Wormall, A.) 371
Precipitin reaction, quantitative study using antigens and antibodies labelled with radioactive isotopes (Francis, G. E., Mulligan, W. & Wormall, A.) xxxvi
Precipitin reaction, use of antigens and antibodies labelled with radioactive isotopes for (Banks, T. E., Francis, G. E., Mulligan, W. & Wormall, A.) 180
Pregnancy, histaminase in (Kapeller-Adler, R.) 99
L-Proline, separation from protein hydrolysates (Partridge, S. M. & Brimley, R. C.) 313
Propionic acid, isolation from milk fat of goat (Popják, G., French, T. H., Hunter, G. D. & Martin, A. J. P.) 612
*Protein, cloudy Perspex standards for the turbidimetric estimation of (King, E. J., Webster, T. A. & Haslam, J.) lxi
Protein, estimation in urine and C.S.F. using permanent turbidimetric standards of Perspex (King, E. J.) 50
Protein factor, animal, effect of antibiotics and vitamin B_{12} on the growth of normal and 'animal protein factor' deficient chicks (Coates, M. E., Harrison, G. F., Kon, S. K., Mann, M. E. & Rose, C. D.) xxii
Protein hydrolysates, separation of amino-acids by ion-exchange resins (Partridge, S. M. & Brimley, R. C.) 313
Protein of ox lens capsule (Pirie, A.) 368
Protein, vitamin B_1 sparing action of (Yudkin, J.) 608
Protein, yeast, in production of dietetic liver necrosis in rats (Lindan, O. & Work, E.) 344
Proteins, blood, conversion of cyanogen chloride to cyanide in the presence of (Aldridge, W. N.) 271
Proteins of fish muscle (Hamoir, G.) 146
Proteins of rabbit muscle, separation by organic solvents (Askonas, B. A.) 42
Proteins, tricalcium phosphate as an adsorbent in the chromatography of (Swingle, S. M. & Tiselius, A.) 171
Proteins, turbidimetric measurement of, permanent standards for (Haslam, J. & Squirrell, D. C. M.) 48
Proteins, vitamin B_{12} and the biological value of (Henry, K. M. & Kon, S. K.) xi
Protoporphyrin levels in patients suffering from blood disorders (White, J. C. & Ventura, S.) lv
Pseudo-cholinesterase activity of the liver and serum of rats, effect of starvation on (Harrison, M. F. & Brown, L. M.) 151
Pseudo-cholinesterase in the plasma of male rats, effect of the ingestion of a hypolipotropic diet on the level of (Hawkins, R. D. & Nishikawara, M. T.) 276

Purine composition of deoxypentose nucleic acids (Wyatt, G. R.) 584
Pyranose and furanose sugars, R_F values of (Isherwood, F. A. & Jermyn, M. A.) 515
Pyridoxal, enzymic oxidation by liver aldehyde oxidase (Schwartz, R. & Kjeldgaard, N. O.) 333
Pyridoxic acid, formation by enzymic oxidation of pyridoxal (Schwartz, R. & Kjeldgaard, N. O.) 333
Pyrimidine composition of deoxypentose nucleic acids (Wyatt, G. R.) 584
Pyrophosphate as inhibitor of succinic dehydrogenase of *Neurospora crassa* (Shepherd, C. J.) 483
Pyruvate, formation from citrate by yeast extract (Foulkes, E. C.) 378
Pyruvate, metabolism by rat-liver slices (Fantl, P., Lincoln, G. J. & Nelson, J. F.) 96

Quinic acid, conversion to hippuric acid (Beer, C. T., Dickens, F. & Pearson, J.) 222
Quinine as inhibitor of D-amino-acid oxidase (Burton, K.) 458

Rabbit, conversion of *cyclo*hexanecarboxylic acid to benzoic acid (Beer, C. T., Dickens, F. & Pearson, J.) 222
Rabbit erythrocyte, circulating, studies on the metabolism of (Muir, H. M., Perrone, J. C. & Popják, G.) iv
Rabbit, formation of benzoic acid from benzamide, toluene, benzyl alcohol and benzaldehyde and its conjugation with glycine and glucuronic acid in (Bray, H. G., Thorpe, W. V. & White, K.) 88
Rabbit, kinetic studies of the conjugation of phenols with sulphuric and glucuronic acids by (Bray, H. G. & White, K.) xliii
Rabbit, metabolism of tolunitriles and benzonitrile in (Bray, H. G., Hybs, Z. & Thorpe, W. V.) 192
Rabbit muscle extract, use of organic solvents at low temperatures for the separation of enzymes in (Askonas, B. A.) 42
Rabbit urine, examination of the glucuronide fraction after administration of benzene (Parke, D. V. & Williams, R. T.) 621
Rabbits, metabolism of nitrobenzene and mononitrophenols in (Robinson, D., Smith, J. N. & Williams, R. T.) xxvii
Rabbits receiving benzene, mercapturic acid excretion by (Parke, D. V. & Williams, R. T.) 624
Racemization of serine (Crawhall, J. C. & Elliott, D. F.) 237
*Radioactive isotopes, equipment used in the measurement of (Banks, T. E., Burnop, V. C. E., Francis, G. E., Mulligan, W. & Wormall, A.) xlv
Radioactive isotopes, use in immunology (Banks, T. E., Francis, G. E., Mulligan, W. & Wormall, A.) 180, 371
Rape, germinating effect of chlorination on (Jones, R. L., Metcalfe, T. P. & Sexton, W. A.) 422
Rat, biological activity of the bound form of nicotinic acid in maize for (Kodicek, E.) viii
Rat, biosynthesis of choline methyl groups by (Arnstein, H. R. V.) 27
Rat, conversion of *cyclo*hexanecarboxylic acid to benzoic acid (Beer, C. T., Dickens, F. & Pearson, J.) 222
Rat, effect of carbohydrate in diets deficient in vitamin B_1 upon the survival and vitamin B_1 content of the rat (Yudkin, J.) 608
Rat liver and serum, the effect of starvation on the pseudocholinesterase activity of (Harrison, M. F. & Brown, L. M.) 151
Rat liver, transamination and oxidation of L-tyrosine with the formation of acetoacetate by (Le May-Knox M. & Knox, W. E.) xxii
Rat, relative metabolic inertia of collagen in (Perrone, J. C. & Slack, H. G. B.) iv
Rat, selective absorption of stereo-isomers of amino-acids from loops of the small intestine of (Gibson, Q. H. & Wiseman. G.) 426
Rat thyroid, effect of resorcinol on the uptake of radioactive iodine by (Arnott, D. G. & Doniach, I.) lxii
Rats, amino-acid composition of yeast used to produce massive dietetic liver necrosis in (Lindan, O. & Work, E.) 337
Rats, distribution of silicon injected into (Holt, P. F., Yates, D. M. & Tomlin, D. H.) xliv
Rats, effect of feeding zinc on the liver and bones of (Sadasivan, V.) 527
Rats, male, effect of the ingestion of a hypolipotropic diet on the level of pseudo-cholinesterase in the plasma of (Hawkins, R. D. & Nishikawara, M. T.) 276
Rats, normal and cholesterol-fed, component fatty acids of the faecal lipids of (Edwards, D. C. & Cook, R. P.) ix
Rats, normal and cholesterol-fed, faecal volatile acids of (Thomson, R. O.) x
Rats, nutritive properties of yeasts used to produce massive dietetic liver necrosis in (Lindan, O. & Work, E.) 344
Reducing substances, non-glucose in diabetes (Illing, E. K. B., Gray, C. H. & Lawrence, R. D.) 637, xxxiv
Reductic acid, reduction by *Escherichia coli* (Mapson, L. W. & Ingram, M.) 551
Reductone, reduction by *Escherichia coli* (Mapson, L. W. & Ingram, M.) 551
§Reproduction, hormonal and nutritional factors in the metabolism of the male accessory organs of (Lutwak-Mann, C.) lxiv
Reproduction, effect of malnutrition on the secretory function of male accessory glands of (Lutwak-Mann, C. & Mann, T.) xxvi
§Reproduction, sexual, in plants, biochemistry of (Hawker, L. E.) lxv
Resins, synthetic ion-exchange, displacement chromatography on (Partridge, S. M. & Brimley, R. C.) 313
Resorcinol, effect on the uptake of radioactive iodine (^{131}I) by the rat thyroid (Arnott, D. G. & Doniach, I.) lxii
Respiration of *Bacillus subtilis*, effect of *cis*-vaccenic acid on (Laster, H.) 164
Respiration in preparations from mammalian brain (Case, E. M. & McIlwain, H.) l
Retina, *in vitro* measurements of the turnover rate of potassium in (Krebs, H. A., Eggleston, L. V. & Terner, C.) 530
Rhesus monkeys, hyaluronic acid in exudate from oedematous sexual skin in (Rienits, K. G.) lviii
Rhodopsin, preparation of (Collins, F. D., Love, R. M. & Morton, R. A.) xxxv
Rhodopsin, regeneration of (Collins, F.D.) xxxv
Rod outer segments, chemical composition of (Collins, F. D., Love, R. M. & Morton, R. A.) xxxv
Rumen of sheep, reduction of nitrate in (Lewis, D.) 171

Saccharomyces cerevisiae, tricarboxylic acid cycle in (Foulkes, E. C.) 378
Sebum fractions, spectrophotometric examination of (Festenstein, G. N. & Morton, R.A.) xxxix
Sebum, human, unsaponifiable fraction of (Mackenna, R. M. B., Wheatley, V. R. & Wormall, A.) xxxviii
Secretory function of male accessory glands of reproduction, effect of malnutrition on (Lutwak-Mann, C. & Mann, T.) xxvi
Segments, rod outer, chemical composition of (Collins, F. D., Love, R. M. & Morton, R. A.) xxxv
Semen, fructose formation of (Mann, T. & Lutwak-Mann, C.) xvi
§Semen, mammalian, composition, metabolism and survival of (Mann, T.) lxiii
Semen, metabolism of (Mann, T.) 386

[β-^{14}C]-Serine and biosynthesis of choline in rats (Arnstine, H. R. V.) 27
Serine biosynthesis, role of formate of (Kruhøffer, P.) 604
Serine, racemization of (Crawhall, J. C. & Elliott, D. F.) 237
Serum, blood, determination of copper and zinc in (Ventura, S. & King, E. J.) lxi
Serum, calcium method for 0·5 ml. of (King, E. J., Bain, D. & Pash, V.) lxii
Serum, estimation of sodium gentisate in (Meade, B. W. & Smith, M. J. H.) xxix
Serum globulins, interaction with calcium (Martin, N. H. & Perkins, D. J.) lvi
Serum, pregnancy, histaminase in (Kapeller-Adler, R.) 99
Serum, rat, effect of starvation on the pseudo-cholinesterase activity of (Harrison, M. F. & Brown, L. M.) 151
Sexual skin, oedematous, in rhesus monkeys, hyaluronic acid in exudate from (Rienits, K. G.) lviii
Sheep, metabolism of nitrate and nitrite in (Lewis, D.) 171
Sheep submandibular glands inhibiting haemagglutination by influenza virus, mucoid from (McCrea, J. F.) xlix
Silage, estimation of lactic acid in (Barnett, A. J. G.) lvii
Silicon injected into rats, distribution of (Holt, P. F., Yates, D. M. & Tomlin, D. H.) xliv
Silk, reaction with oxidizing agents (Alexander, P. & Gough, D.) 504
Silk tyrosine, reaction with oxidizing agents (Alexander, P. & Gough, D.) 504
Silver iodate method for the determination of chloride (King, E. J. & Bain, D. S.) 51
Skeletal muscle, adenosinetriphosphatase activity of myofibrils isolated from (Perry, S. V.) 257
Sodium, effect of temperature on the interference of potassium in the determination of (Harrison, M. F.) 283
Solvent, developing, methyl cellosolve as in paper partition chromatography (Bender, A. E.) xv
Solvents, organic, use at low temperature for the separation of enzymes (Askonas, B. A.) 42
Spectrophotometric determination of phenolsulphatase (arylsulphatase) (Robinson, D., Spencer, B. & Williams, R. T.) xxviii
Spectrophotometric examination of sebum fractions (Festenstein, G. N. & Morton, R. A.) xxxix
§Sperm-egg interacting substances associated with fertilization (Rothschild, Lord) lxv
Spermatozoa, human, cytochrome in (Mann, T.) 386
Standards, turbidimetric, preparation for use in the determination of small amounts of chloride (Haslam, J. & Squirrell, D. C. M.) 48
Staphylococcus aureus, action of inhibitors and antibiotics on the accumulation of free glutamic acid and the formation of combined glutamate in (Gale, E. F. & Paine, T. F.) 298
Staphylococcus aureus, action of inhibitors on the accumulation of free glutamic acid in (Gale, E. F.) 286
Staphylococcus aureus, relationship between accumulation of free glutamic acid and the formation of combined glutamic acid in (Gale, E. F.) 290
Starch, degradation by culture filtrates of *Clostridium butyricum* (Whelan, W. J. & Nasr, H.) 416
Starvation, effect on the pseudo-cholinesterase activity of the liver and serum of rats (Harrison, M. F. & Brown, L. M.) 151
Stearic acid, biogenesis in mammary gland of goat (Popják, G., French, T. H., Hunter, G. D. & Martin, A. J. P.) 612
Stereo-isomers of amino-acids from loops of the small intestine of the rat, selective absorption of (Gibson, Q. H. & Wiseman, G.) 426
Steroid hormones, effect on histaminase (Kapeller-Adler, R.) xxi
Steroids, chloroform-insoluble conjugated adrenocortical, hydrolysis in human urine (Cox, R. E. & Marrian, G. F.) xxxiii
Steroids, chloroform-soluble conjugated adrenocortical, in human urine (Paterson, J. Y. F. & Marrian, G. F.) xxxiii
Stimulant involved in the germination of *Orobanche minor* Sm. (Brown, R., Greenwood, A. D., Johnson, A. W. & Long, A. G.) 559; (Brown, R., Greenwood, A. D., Johnson, A. W., Long, A. G. & Tyler, G. J.) 564
Streptococcus faecalis, action of inhibitors on the accumulation of free glutamic acid in (Gale, E. F.) 286
Streptomycin, effect on metabolism of *Staphylococcus aureus* (Gale, E. F. & Paine, T. F.) 298
Structure of the simple sugars, relationship with their behaviour on the paper chromatogram (Isherwood, F. A. & Jermyn, M. A.) 515
Subcuticle of wool and oxidation by chlorine (Alexander, P., Gough, D. & Hudson, R. F.) 20
Submandibular glands, sheep, mucoid from inhibiting haemagglutination by influenza virus (McCrea, J. F.) xlix
Succinic dehydrogenase and carbohydrate metabolism in *Neurospora* (Shepherd, C. J.) 483
Succinic dehydrogenase, cyanide inactivation of (Tsou, C. L.) lii
Succinic dehydrogenase, relation to cytochrome *b* (Tsou, C. L.) lii
Sucrose diet, high-, effect on the calcium and phosphorus content of the enamel and dentine of rat incisors (Hartles, R. L.) 245
Sugars, mixed amino, separation and identification of small amounts of (Annison, E. F., James, A. T. & Morgan, W. T. J.) 477
Sugars, simple, relationship between their structure and behaviour on the paper chromatogram (Isherwood, F. A. & Jermyn, M. A.) 515
Sulphamezathine, metabolism in the rabbit (Bray, H. G., Lake, H. J. & Thorpe, W. V.) 400
Sulphanilamidopyrimidine *see* Sulphamezathine
Sulphate, ethereal, excretion by rabbit after administration of *o*-tolunitrile and benzonitrile (Bray, H. G., Hybs, Z. & Thorpe, W. V.) 192
Sulphate, ethereal, formation from pyrimidine compounds in rabbit (Bray, H. G., Lake, H. J. & Thorpe, W. V.) 400
Sulphetrone mixed with *p*-aminosalicylic acid in body fluids, differential determination of (Short, E. I.) 301
Sulphonamides, hydroxylation in the rabbit (Bray, H. G., Lake, J. H. & Thorpe, W. V.) 400
Sulphonamides mixed with *p*-aminosalicylic acid in body fluids, differential determination of (Short, E. I.) 301
Sulphonated polystyrene, use as ion-exchange resin in separation of amino-acids (Partridge, S. M. & Brimley, R. C.) 313
Sulphur compounds, liberation of hydrogen sulphide by X-radiation from (Dale, W. M. & Davies, J. V.) 129
Sulphur content of rat livers on various diets (Lindan, O. & Work, E.) 344
Sulphur content of yeasts (Lindan, O. & Work, E.) 337
Sulphuric acid esters, formation from aminohydroxybenzoic acid in the rabbit (Bray, H. G., Thorpe, W. V. & Wood, P. B.) 394
Sulphuric acid, kinetic study of the conjugation with phenol by the rabbit (Bray, H. G. & White, K.) xliii
Sulphydryl compounds, conversion of cyanogen chloride to cyanide in the presence of (Aldridge, W. N.) 271
Surface-active agents and action of cholinesterase (Todrick, A., Fellowes, K. P. & Rutland, J. P.) 360

Talc, adjuvant action on virulence-enhancing factor (Smith, H.) 441
Teeth, rat, calcium and phosphorus content of (Hartles, R. L.) 245

Temperature, effect on the interference of potassium in the determination of sodium (Harrison, M. F.) 283
Temperature, effect on the order of displacement of synthetic ion-exchange resins (Partridge, S. M. & Brimley, R. C.) 313
Terephthalamic acid metabolism in rabbit (Bray, H. G., Hybs, Z. & Thorpe, W. V.) 192
Thiouracil, effect on the metabolism of carotene (Chanda, R., McNaught, M. L. & Owen, E. C.) xli
Thyroid, rat, effect of resorcinol on the uptake of radioactive iodine by (Arnott, D. G. & Doniach, I.) lxii
Thyroxine, biological action of substances related to (Sheahan, M. M., Wilkinson, J. H. & Maclagan, N. F.) 188
Thyroxine, effect on the metabolism of carotene (Chandra, R., McNaught, M. L. & Owen, E. C.) xli
Thyroxine-inhibitory action of iodinated benzoic acid derivatives (Wilkinson, J. H., Sheahan, M. M. & Maclagan, N. F.) iii
Toluene derivatives, metabolism of (Bray, H. G., Hybs, Z. & Thorpe, W. V.) 192
Toluene, formation of benzoic acid from, in rabbit (Bray, H. G., Thorpe, W. V. & White, K.) 88
Tolunitriles, metabolism in rabbit (Bray, H. G., Hybs, Z. & Thorpe, W. V.) 192
Toxic substance from agenized wheat flour, isolation of (Campbell, P. N., Work, T. S. & Mellanby, E.) 106
Transamination of L-tyrosine by rat liver with the formation of acetoacetate (Le May-Knox, M. & Knox, W. E.) xxii
Tricalcium phosphate as an adsorbent in the chromatography of proteins (Swingle, S. M. & Tiselius, A.) 171
Tricarboxylic acid cycle in yeast (Foulks, E. C.) 378
Tricarboxylic acid fraction from poisoned kidney homogenates, isolation of (Buffa, P., Peters, R. A. & Wakelin, R. W.) 467
Trichloroacetic acid precipitation method for lipid phosphate (King, E. J. & Weedon, W.) lx
2:3:6-Trichlorobenzaldehyde, auxin-like action of (Jones, R. L., Metcalfe, T. P. & Sexton, W. A.) 422
2:3:4-Trimethyl α-methyl-D-glucopyruronoside acid amide from methylation of hyaluronic acid (Kaye, M. A. G. & Stacey, M.) 249
Trinucleotides in hydrolysate of deoxyribonucleic acid (Gordon, A. H. & Reichard, P.) 569
Trioctylamine, removal of acid from samples for microbiological assay by (Hughes, D. E. & Williamson, D. H.) 487
Triterpenoid of *Polyporus benzoinus* (Morgan, E. N.) xliii
Tropomyosin of fish (Hamoir, G.) 146
Trypsin and behaviour of muscle component (Perry, S. V.) 257
Tryptophan, chromatography of (Cornforth, J. W., Dalgliesh, C. E. & Neuberger, A.) 598
Tumour, adrenal medullary, derivatives of adrenaline and noradrenaline in an extract of (Crawford, T. B. B.) 203
*Turbidimetric estimation of protein and chloride, cloudy Perspex standards for (King, E. J., Webster, T. A. & Haslam, J.) lxi
Turbidimetric standards of Perspex, estimation of protein in urine and C.S.F. with (King, E. J.) 50
Turbidimetric standards, permanent, for use in the determination of small amounts of chloride, preparation of (Haslam, J. & Squirrell, D. C. M.) 48
Tyrosine and lysine residues in wool, formation by formaldehyde of a cross-link between (Alexander, P., Carter, D. & Johnson, K. G.) 435
Tyrosine, reaction with wool (Alexander, P. & Gough, D.) 504
L-Tyrosine, transamination and oxidation by rat liver with the formation of acetoacetate (Le May-Knox, M. & Knox, W. E.) xxii
Udder, cow, synthesis of milk fat by when perfused and isolated (Cowie, A. T., Duncombe, W. G., Folley, S. J., French, T. H., Glascock, R. F., Massart, L., Peeters, G. & Popják, G.) xxxix
Udder, of goat, synthesis of lipids in (Popják, G., French, T. H. & Folley, S. J.) 411
Umbilical cords, isolation of potassium hyaluronate from (Kaye, M. A. G. & Stacey, M.) 249
n-1:11-Undecane diamidine, depression of oxidative phosphorylation by (Judah, J. D. & Williams-Ashman, H. G.) 33
Ungulinic acid from *Polyporus benzoinus* (Wahl.) Fr. (Morgan, E. N.) xliii
Unsaponifiable fraction of human sebum, constituents of (Mackenna, R. M. B., Wheatley, V. R. & Wormall, A.) xxxviii
Uranyl acetate, sodium zinc ('triple salt'), precipitation in determination of sodium (Harrison, M. F.) 283
Urine, determination of benzoic and hippuric acids in (Dickens, F. & Pearson, J.) 216
Urine, determination of phenylmercapturic acid in (Parke, D. V. & Williams, R. T.) 624
Urine, estimation of protein in, using permanent turbidimetric standards of Perspex (King, E. J.) 50
Urine, human, chloroform-soluble conjugated adrenocortical steroids in (Paterson, J. Y. F. & Marrian, G. F.) xxxiii
Urine, human, hydrolysis of the chloroform-insoluble conjugated adrenocortical steroids in (Cox, R. I. & Marrian, G. F.) xxxiii
Urine in a case of primary hepatoma, ethanolamine in (Dent, C. E., Fowler, D. I. & Walshe, J. M.) xiii
Urine, occurrence of free methylhistidine in (Searle, J. M. & Westall, R. G.) xlix
Urine, paper chromatographic separation of (Boscott, R. J.) xlvii
Urine, porphyrins present during lead poisoning (Nicholas, R. E. H. & Rimington, C.) 306
Urine, rabbit, examination of the glucuronide fraction after administration of benzene (Parke, D. V. & Williams, R. T.) 621
Urine, radioactive iodine in, after administration of pheniodol to rats (Free, A. A., Page, J. E. & Woollett, E. A.) 490
Uronic acid from hyaluronic acid (Kaye, M. A. G. & Stacey, M.) 249
Ustic acid, isolation from *Aspergillus ustus* (Bainier) Thom & Church (Raistrick, H. & Stickings, C. E.) 53

cis-Vaccenic acid, effect on respiration and growth of *Bacillus subtilis* (Laser, H.) 164
*Vacuum manifold used for the micro-synthesis of isotopically labelled compounds (Burnop, V. C. E.) xlv
Valence, antibody, observations on (Banks, T. E., Francis, G. E., Mulligan, W. & Wormall, A.) 371
Valency of antibodies (Marrack, J. R., Hoch, H. & Johns, R. G. S.) xxi
Valeric acid, isolation from milk fat of goat (Popják, G., French, T. H., Hunter, G. D. & Martin, A. J. P.) 612
L-Valine, separation from protein hydrolysates (Partridge, S. M. & Brimley, R. C.) 313
Values, normal biochemical, for whole blood and plasma (Wootton, I. D. P., King, E. J., Maclean Smith, I. & Haslam, R.) lix
Virulence-enhancing factor of mucins (Smith, H.) 441
Virus, influenza, mucoid from sheep submandibular glands inhibiting haemagglutination by (McCrea, J. F.) xlix
Vitamin A activity in human milk, partition of (Chanda, R., Owen, E. C. & Cramond, B.) xlii
Vitamin A, preformed in marine Crustacea (Batham, E., Fisher, L. R., Henry, K. M., Kon, S. K. & Thompson, S. Y.) x
Vitamin B deficiency, effect on nucleic acid phosphorus content of rat bone marrow (Lutwak-Mann, C.) xxv

Vitamin B, effect on liver lipids of rats (Best, C. H., Lucas, C. C., Patterson, J. M. & Ridout, J. H.) 452
Vitamin B_1 sparing action of fat and protein (Yudkin, J.) 608
Vitamin B_{12} additional factors concerning (Lester Smith, E., Fantes, K. H., Ball, S., Ireland, M., Waller, J. G., Emery, W. B., Anslow, W. K. & Walker, A. D.) 1 (*Proc.*)
Vitamin B_{12}, and the biological value of proteins (Henry, K. M. & Kon, S. K.) xi
Vitamin B_{12}, effect on the conversion of glycine to choline (Arnstein, H. R. V. & Neuberger, A.) ii
Vitamin B_{12}, effect on the growth of normal and 'animal protein factor' deficient chicks (Coates, M. E., Harrison, G. F., Kon, S. K., Mann, M. E. & Rose, C. D.) xii
Vitamin B_{12}, excretion studies of (Chesterman, D. C., Cuthbertson, W. F. J. & Pegler, H. F.) li
Volume calibration of apparatus with standard ground joints (Dickens, F.) 385

Warburg manometers, nomograms for (Dixon, M.) 575
Warburg manometers, volume calibration of (Dickens, F.) 385
Water, molar fraction in solvents and R_F values in chromatograms of sugars (Isherwood, F. A. & Jermyn, M. A.) 515
Wheat flour, agenized, isolation of a toxic substance from (Campbell, P. N., Work, T. S. & Mellanby, E.) 106
Wheat, germination of, effect of chlorination on (Jones, R. L., Metcalfe, T. P. & Sexton, W. A.) 422
Wood-rotting fungus *Polyporus benzoinus* (Wahl.) Fr., metabolic products of (Morgan, E. N.) xliii
Wool, esterification of the carboxyl groups in (Alexander, P., Carter, D., Earland, C. & Ford, O. E.) 629
Wool, formation by formaldehyde of a cross-link between lysine and tyrosine residues in (Alexander, P., Carter, D. & Johnson, K. G.) 435
Wool, reaction of oxidizing agents with (Alexander, P., Gough, D. & Hudson, R. F.) 20; (Alexander, P. & Gough, D.) 504

X-radiation, liberation of hydrogen sulphide from sulphur compounds by (Dale, W. M. & Davies, J. V.) 129

Yeast, tricarboxylic acid cycle in (Foulkes, E. C.) 378
Yeasts used to produce massive dietetic liver necrosis in rats, amino-acid composition of (Lindan, O. & Work, E.) 337
Yeasts used to produce massive dietetic liver necrosis in rats, nutritive properties of (Lindan, O. & Work, E.) 344

Zeo-Karb 215, use as ion-exchange resin in separation of amino-acids (Partridge, S. M. & Brimley, R. C.) 313
Zinc, determination in blood serum (Ventura, S. & King, E. J.) lxi
Zinc, effect on liver and bones when fed to rats (Sadasivan, V.) 527
Zinc, radioactive, studies on red and white blood cells labelled with (Tupper, R., Watts, R. W. E. & Wormall, A.) xxxvii
